

Cloud Research

You have chosen one type of cloud to research out of the ten that we have read about. You are to make a power point presentation to share the information on your type of cloud. Your presentation needs to be at least 5 slides long. You must include:

- * Physical description of cloud type
- * Elevation typical for cloud type
- * Definition of name parts including prefix
- * Type of weather associated with cloud type
- * Common means of cloud formation
- * Physical state and size of water particles in cloud
- * At least three pictures of typical clouds of that type.

This assignment is worth 50 points total:

5 for each slide (neatness, readability, and information)	25 total
2 for each of the above factual requirements	12 total
3 for each picture	9 total
4 for overall presentation	4 total

This project is due Thursday March 25th.
