

MASTER OF SCIENCE DEGREE PROGRAMS

Department of Technological Studies

Department of Technological Studies Master of Science Degree Programs

M.S. in Industrial Technology

This graduate degree program is exciting, integrative, and flexible. The program provides advanced studies in Industrial Technology. The foundation of the program is centered around basic research, statistics, and leadership classes. While the program is broad in nature its focus leans toward quality Management.

This program is offered in a distance delivery format. Most classes are offered using computer and Internet technologies. This delivery format enables graduate students to fit classes around their schedule. The program is ideal for working Professionals wishing to increase their educational credentials.

M.S. in Technology/Career and Technical Education

The Department of Technological Studies also offers a graduate degree for individuals wishing to enhance their personal credentials and/or prepare for leadership roles in a wide range of positions in Technology Education, and Career and Technical Education.

Courses are available through both on-site and distance Delivery options (web, ITV and self-guided). Topics in these courses include advanced teaching skills, leadership, research and educational administration/supervision.
