

## What is the mission of Bemidji State University?

- To teach not only our school worth but to make us a good Samaritan of our society
- To educate and prepare students with the tools they need to succeed in potentially shaping worlds
- To encourage higher learning, to build individuals
- To help people achieve a higher standard of life
- To build community, involvement, relationships
- To take the learning the life
- Embrace educate engage
- To give students an opportunity to learn valuable skills that will assist them in their lives and jobs after graduation
- BSU was created as a higher learning institute. The mission is to take raw youths and shape them into valuable, well-rounded members of our society. I came to BSU to get a personalized education that would help me to fulfill my goals and make me a stronger person.
- Educate, embrace, engage. To take the life the learning. Mass communication degree but the teachers are all quitting, makes it difficult to complete a degree on time. Baseball but title IX dropped the IV program and business administration is completely rebuilding the program.
- To bring the next generation of students into knowledge of what this world has to offer and how to survive in it. The organization educates and makes everyone think about the future. To make the world a better place by educating students about the environment, diversity and job skills for life. To help everyone become more accepting of people who are different from them. To achieve unity and work towards one purpose.
- Teach students and open their minds to nature and the world around them. They are very environmentally conscious. Work towards getting students involved and expand their interests and knowledge.
- To educate people, specifically in preparation for their future career. To give people transferable life skills.
- To bring learning to different levels and to live together, as one. Group isolation.
- This organization was created to offer people an opportunity to better themselves through education. It continues to exist because education is in high demand.
- Listen, learn, teach, tell. To take, the learning, the life. Bros before hoes. Eat, skate, \*\*\* (inappropriate words). Living the dream. Knowledge is the gateway to success.
- To share knowledge with fellow peers. To help further your skills and intellect. To open your doors to new experiences. To help students reach out and try new things. To further our horizons.
- To give students a good education
- To provide further education to students with a desire to learn in a variety of fields. To provide students with a positive, healthy environment to succeed in everything they choose to study and do.
- To help educate students and further academic progress in general.
- Avoid alcohol related deaths. Provide further education to people with low ACT scores. SCSU of the north.
- To get us ready for a future career.
- Education, girls, career, to succeed, independence, hockey, beavers, snow, pine trees, facebook, rec center
- To enable people to better themselves
- Educate people to become a productive member of society. Educate people on the world around

them.

- To help make learning available to everyone
- To educate, prepare, live, succeed
- To fully help students in their learning, financial need, and social aspect of life.
- Help students and their financial need because students are still in need of financial help. Gives money to students so they can achieve and not worry about their financial needs. Explore, embrace, exceed.
- Get students to engage in community activities
- Get students to step outside comfort zones. Get involved in world problems
- Provide something for everyone's interest. Learn to the fullest of your ability.
- Take the life the learning. To educate for life. To create a great education environment for students to learn about life and to succeed in life. Create an inspiring environment. There should be no ends to an education
- To guide students through advanced learning and prepare them for the future through true personal connection with others and faculty and something else.
- To prepare students from the region and beyond for the competitiveness of life. To make it. To give students the tools they need to be successful.
- Engage, embrace, educate, evolve. Put students interests first.
- Create educated, well-rounded responsible students and encourage them to become active citizens in their community.
- Get students ready for the workforce, work on acquiring knowledge and wisdom, become better citizens, understand the world around them. Open their eyes to new perspectives, opinions, and lifestyles. Teach to do more than just get by, get better, leave things better.
- Provide an opportunity for higher accredited learning
- To develop and understanding of how education interweaves with community. Education, the main reason we're here.
- Educate, prepare people for their future, learn life skills.
- To make the students able to be able to succeed in their specific career
- To create a community and family. To make it cheap for everyone.
- Provide an outstanding education to any students who wishes to pursue one and aide that student in obtaining their degree in four years. Provide students with educators who have a passion for their area of study and want wait to teach students.
- To provide an education to students past high school
- Originally created to educate people to be teachers and developed to educate people in various areas and changes from a normal school to teachers college then to a college then to a university. It continues to exist because people are continually interested in learning things that are taught here and enjoy the location.
- To educate and mould the current generation for tomorrow. Provides opportunity for personal growth. Provide the best of education for the students. Learning taking place in and out of classroom. Diversity in learning about the surroundings and world.

- To embrace the open mind of students willing to learn.
- To provide education, support diversities. Prepare us for our future with opportunities available.
- Educate people. Provide a good environment for learning

- To educate, provide higher learning, go green
- Embrace, engage, and educate. To feed me on a Monday night. To get me a degree.
- Embrace, engage, educate. To teach students and to help them embrace their education and apply it to their future career and life.
- To educate. To lure future generations. Providing a close-to-home service. To state what our goals are for the university.
- To competently educate students so they can succeed in an intelligent, competitive career.
- To allow educational opportunities without education, our society would not thrive. Engage, embrace, educate.
- To better people's future
- To provide a quality education, to prepare us for a future that can only be imagined, to elevate the level of education that we can receive.
- To provide quality education in a unique, positive, social setting
- To offer a qualitative educational programs at both undergraduate and graduate levels. This is an avenue to attract a more diverse student population and allow for enrichment of the university environment. They will actually be able to stay at BSU by conducive environment for leaving.
- Engage, embrace, educate. It's created because CEL wants to make students feel comfortable at BSU. It tries to evolve everyone. It provides us with a goal to achieve.
- To educate the future of America. To give us the resources necessary to excel with our future endeavors whether professional or productive member of society.
- To make as much money in exchange with a mediocre education
- To educate the students and give them knowledge and skills necessary for a competitive edge to succeed in the world.
- To teach us to be "big kids" and to get good jobs in the big world. Growing into productive contributors to society.
- To educate the students to a higher learning. To ready us for a real life that is happy and healthy.
- To provide students with an atmosphere that is conducive to a healthy environment for education.
- To educate
- To educate, push new boundaries of knowledge, involve others, engage, create community
- To give students skills for life to help them. Help them earn a degree so they may receive a better income.
- TO provide higher education in an environment that isn't urban. Give people skills to be productive in the work force.
- Provide education, qualified educators, create an environment where education and self-actualization is possible, gather people with interest in science to enable new findings and scientific program
- A place to grow socially and personally
- To facilitate a learning environment and to allow individuals to grow and to be more independent
- To educate and further the people's mind and to become an economically friendly campus
- To expand the knowledge and sociable tendencies
- To provide a competent education to those who attend despite any ideology of the time
- To educate, provide a safe environment, to have an enjoyable time, to engage and incorporate the surrounding community
- To prepare individuals that can add to the quality of society. To prepare individuals that can add

- value to the jobs they will fill. To engage students in order to allow them to “learn to learn”
- To advance education with the purpose of preparing students for demanding positions in the work force.
