Graduation Planning Form

Non-Teaching Degree Option (Special Education)

Individuals who have a four-year degree other than elementary or secondary education but want to enter the teaching profession and special education should inquire about the Non-Teaching Degree Program. There are two components to the Non-Teaching Degree Program. First, individuals will need to complete the Standards of Effective Practice block of courses, which is 33 credits. These courses are required for all individuals seeking licensure through Bemidji State University. Second, individuals will need to complete all the courses in the specific learning disabilities or the emotional behavioral disorders license. Upon completion of both the Standards of Effective Practice block of courses and the special education licensure courses, the individual will do a 12 credit student teaching experience in special education (ED 4840) which is required in the Standards of Effective Practice block of courses.
