

opc REN tals

The Outdoor Program Center has been a fixture and tradition at Bemidji State University for over 30 years. The OPC provides exceptional service to students and the community in the form of trips, clinics and rentals. Get to know the beautiful northwoods surrounding Bemidji, learn a new skill, meet some new friends or visit a far off destination. Our trips are well-planned and led by qualified student staff. Let us line up the permits, transportation and equipment, and you can focus on enjoying the beautiful natural settings. We emphasize safety and learning about the natural environment. Make connections with nature and other people, and create lifelong memories.
