Technology, Art and Design
Career Outlook 2014–2015

Technology, Art and Design Programs Available at Bemidji State University:

**Majors:** Applied Engineering, (BAS); Engineering Technology, (BS); Project Management, (BS); Technology Management, (BAS); Art and Design, (BS)- refer to separate Career Outlook for specific placement info.

**Field of Emphasis:** Articulated Emphasis; Digital and Exhibit Design Emphasis; Studio Arts Emphasis; Construction Management Emphasis; Manufacturing Emphasis; Operations Management Emphasis; Facility Management Emphasis

**Minors:** Design; Project Management, Studio Arts

**Department Website:** http://www.bemidjistate.edu/academics/departments/technology_art_design/

**MAJOR HIGHLIGHTS:**
The Department of Technology, Art and Design offers a variety of programs that span the application of technology, art and design in response to a range of human wants and needs. Courses nurture the development of individual creative expression, critical thinking and problem solving skills. Degree programs foster the development of knowledge and skills to design and develop creative solutions that address operations and future needs in an array of cultural, design, business, technological and industrial settings. The department offers a nationally accredited* Bachelor of Science program in Industrial Technology, with specializations in Construction Management and Manufacturing Management. Along with the associated Bachelor of Applied Science programs in Applied Engineering and Technology Management, these degree options offer both four-year and transfer students the opportunity to prepare for leadership roles in a wide range of technologically based enterprises including but not limited to the fields of construction, energy, manufacturing and sustainability. Transfer students have the option to enroll in either the Bachelor of Applied Science program in Applied Engineering or Technology Management. Both degrees are offered as “2 + 2” programs online or on campus for working professionals who have either an Associate of Science degree, Associate of Applied Science degree, diploma or certificate and wish to complete a Bachelor’s degree. The Bachelor of Science in Art and Design offers students a unique and exciting opportunity to pursue careers that demand excellence in a combination of technical, creative, and artistic capabilities. Students can pursue specializations in either Studio Arts or Digital and Exhibit Design. All Art and Design students benefit from a portfolio review process, a graduation requirement that offers them the opportunity to present their professional portfolios to leaders in their industries from across the nation. Students transferring from a MnSCU Community and/or Technical College with an Associate degree in a related design field may be eligible for articulated transfer into the Art and Design Technology program. The Department of Technology, Art and Design offers five exhibition spaces that present local, regional, national and international exhibits. The gallery program also maintains permanent collections in ceramics and prints.

*The BS in Industrial Technology is accredited by the Association of Technology, Management, and Applied Engineering (http://atmae.org).

**EMPLOYMENT AREAS:**
The "Occupational Outlook Handbook" reports that industrial production managers held about 172,700 jobs in 2012. About 75 percent are employed in manufacturing industries, including fabricated metal product, transportation equipment, and computer and electronic product manufacturing. Construction managers held about 485,000 jobs nationwide in 2012.

**PROJECTED DEMAND FOR TECHNOLOGY, ART AND DESIGN MAJORS IN MINNESOTA:**
The iSeek.org website reports that the growth rate for manufacturing engineering technologists is 4.2%, with 1,204 currently employed in Minnesota with a median wage of $27.39 per hour. There are currently 4,730 construction managers employed in Minnesota. The outlook for this classification is very good, with a growth of 22.1%. The median salary of construction managers in Minnesota is $39.90.
PROJECTED DEMAND FOR TECHNOLOGY, ART AND DESIGN MAJORS NATIONWIDE:
Focus™ reports that the nationwide demand for industrial engineering technicians is expected to grow slower than average through 2022, with people established in their career generally earning between $37,450 and $59,090 per year. Focus™ reports that the nationwide demand for construction managers is expected to grow faster than average through 2022, with people established in their career generally earning between $62,700 and $111,170 per year. According to the National Association of Colleges and Employers, beginning construction and new construction management graduates at the baccalaureate level were offered average annual starting salaries of $56,600 in 2012.

PLACEMENT INFORMATION FOR TECHNOLOGY, ART AND DESIGN GRADUATES:
There are many career opportunities for Bemidji State University Technology, Art, and Design graduates. Of the Bemidji State University 2012-2013 Applied Engineering B.A.S. graduates, 83.3% reported obtaining related employment within one year of graduation. Of the Bemidji State University 2012-2013 Technology Management B.A.S. graduates, 100% reported obtaining related employment within one year of graduation. Those Bemidji State University Technological Studies graduates with a Construction Site Management Bachelor of Applied Science reported 100% placement. There was only 1 Engineering Technology B.S. graduate in 2012-2013 and they were still seeking employment at the time of survey. This does not include students who were not seeking employment, furthering their education, unavailable, or had unknown status.

COLLEGES AND UNIVERSITIES WHERE BSU TECHNOLOGY, ART AND DESIGN GRADUATES HAVE GONE TO CONTINUE THEIR EDUCATION:

Bemidji State University, Bemidji, MN
Central Lakes College, Brainerd, MN
Concordia University, St Paul, St Paul, MN
Hibbing Community College, Hibbing, MN
Kelly Graduate School of Management, Oakbrook Terrace, IL
MN West Community and Technical, Worthington, MN
Lake Superior College, Duluth, MN
Metropolitan State University, St. Paul, MN
MN State Community & Technical College, Perham, MN
North Carolina State University At Raleigh, Raleigh, NC
North Dakota State University, Fargo, ND
St. Cloud State University, St. Cloud, MN

Note 1: Some of the above job/career titles require advanced degrees or specialized training.
Note 2: Degrees alone do not get students jobs. Internships, summer jobs, volunteer work, part-time jobs, work-study positions, and active participation in student organizations on campus are all ways to become more competitive in a tight job market.
Note 3: Personal Competencies: it is also recommended that individuals be competent in a variety of communication methods, and computer skills are a must.
