

Note that Weekly Course Count may also include Hourly courses if they occur in a room also used for credit hours

Note that Capacity Indicator of 'FCR' means that ISRS Facility records were used for room capacity. If no capacity was found, a default value of 99 is used. (See screen FC1001UG.)

Seat Usage Percent = (Seats_Used / Seats_Avail_32_hour_week) * 100

* Because several courses may be scheduled in the same room at the same time (either because one course ends and another begins within that hour, or because similar courses are offered together), when courses have the same begin/end date, enrollment is added together, else the MAX enrollment count is used.

Limits:

Own/Lease: O
 Facility Type: 110, 210
 Credit type: C, X

C=credit, H= hourly, X=display lines when no course is held

This report excludes courses with no Bldg Code, courses with no enrollment, courses not in session on thirtieth day, courses with no begin time.

Course count:	628	(Distinct COU_IDs)
	693	(Distinct COU_ID/Room)

Course Count is count of courses held within a given room. If a courses is held in two rooms it is counted as two courses (from the room's point of view, each room holds one course).

Campus: 070

Note that because classes do not always start/end on the hour, there will be some overlap in both seats used and hours used; thus all percentages are approximate.

Main Report - College and Campus Totals

** note - Rooms where capacity was not entered have been set to a capacity of 99. This will result is seat usage being LOWER.

note - Courses scheduled as 'block' will result in higher (incorrect) seat usage. By block, we mean such courses as Cosmetology where the same student is enrolled in multiple courses which are scheduled with one begin date, but actually
