The Project Management degree prepares graduates for planning and managing resources under the constraints of scope, cost, and time to successfully achieve a specific, unique objective. This program addresses the tools, skills, and knowledge necessary to initiate, plan, implement, and evaluate projects to deliver solutions. Program disciplines include: safety and risk management, leadership, quality assurance, technical sales, training, sustainability, engineering economics, and cost analysis. Project Management majors have the option to select from three distinct technology-related emphases: Construction and Facility Management, Product Development, or Operations Management. Technical credits may be transferred in with the help of an advisor.
