

# Health

The vision of the Department of Human Performance, Sport, and Health is “preparing and empowering future professionals to promote physical activity, health, and sport.”

The mission of the Department of Human Performance, Sport, and Health is to provide students with experiences to develop leadership, communication, and technological skills for learning, for citizenship, and for work. Our programs foster an appreciation of the contributions of physical activity, wellness, and sport to society.

Health is an ever-changing condition of well-being. It is influenced by intellectual, occupational, social, emotional, physical and spiritual factors. Health education combines learning experiences in all of these areas to encourage and facilitate the development of healthy behaviors and lifestyles.

Students majoring in health prepare to teach others about healthy living. The program in teacher licensure, leading to State of Minnesota teaching certification, and the Community Health program both offer an academic foundation, professional preparation, student teaching/internship experiences, and a learning environment conducive to personal application of health goals.

Both programs also provide sound academic preparation for entry into health-related master's degree programs. Graduate study is recommended for students pursuing careers beyond entry-level positions.

## Programs

- Community Health, B.S. *major*
- Health Education. B.S. ((Teacher Licensure)) *major*
- Health Promotion and Education Minor *minor*
- Red Cross Community First Aid Certification *cert*
- Red Cross First Aid Responder Certification *cert*

## Career Directions

Community Health Service  
 Community Teacher  
 Education  
 Primary and Secondary School Teaching  
 Private and Public Health Agencies  
 University/College Health Centers  
 Also: Graduate Study

## Preparation

### Recommended High School Courses

Biology  
 Chemistry  
 First Aid  
 Health  
 Psychology  
 Sociology

## Community Health, B.S. *major*

Required Credits: 61  
 Required GPA: 2.25

### I REQUIRED COURSES

Select 1 of the following courses:

- BIOL 1110 Human Biology (4 credits)
- BIOL 1400 Cellular Principles (4 credits)

Complete the following courses:

- BIOL 1111 Anatomy and Physiology for Allied Health I (4 credits)
- HLTH 2100 First Aid and CPR/AED (1 credit)
- HLTH 2800 Multicultural Health in America (2 credits)  
or SOWK 2110 Intercultural Communication (3 credits)
- HLTH 3150 Theoretical and Ethical Foundations of Health (3 credits)
- HLTH 3200 Personal and Consumer Health (3 credits)
- HLTH 3300 Nutrition (3 credits)
- HLTH 3500 Community Health (3 credits)
- HLTH 3710 Disease Prevention and Epidemiology (3 credits)
- HLTH 4410 Health Programming (3 credits)
- PHED 1890 Lifetime Fitness (2 credits)
- PHED 4309 Legal Aspects of Sport, Health, and Fitness (3 credits)

- PSY 3401 Basic Statistics for Research (4 credits)  
or STAT 3660 Statistics for the Health Sciences (3 credits)

Complete the following course:

- HLTH 3970 Internship: Field Experience in Community Health (1-3 credits)

Complete the following course:

- HLTH 4920 Directed Group Study: Health Seminar (1 credit)

Complete 10-12 credits of the following course:

- HLTH 4970 Internship (1-12 credits)

### II ELECTIVES

Select 12 credits from the following courses:

- BIOL 1300 Medical Terminology (2 credits)
- HLTH 3400 Health and Drugs in Society (2 credits)
- LEAD 3500 Theories and Contexts of Leadership (3 credits)
- PHED 1240 Skills for Life: Techniques of Neuromuscular Relaxation (1 credit)
- PHED 2200 A Lifestyle for Wellness (2 credits)
- PHED 3300 Physiology of Exercise and Nutrition (3 credits)

- PHED 4160 Advanced Fitness Assessment & Prescription-Aerobic (3 credits)
- PHED 4170 Advanced Principles for Strength and Speed Training Exercise (3 credits)
- PSY 2200 Human Sexuality (4 credits)
- PSY 3387 Topics in Psychology (1-4 credits)  
or PSY 4587 Advanced Topics in Psychology (2-4 credits)
- PSY 3500 Psychology of Aging (4 credits)
- PSY 3367 Social Psychology (4 credits)

Up to 6 credits of Indigenous Studies courses accepted:

Up to 6 credits of Nursing courses accepted; note that most NRSRG courses are for Nursing majors only

Alternative to completing the 12 credits of electives  
\*Successful completion of an accredited Community Health Worker Certificate curriculum (earning this credential also fulfills HLTH 3970 - Internship: Practicum in Health)

### Program Learning Outcomes | Community Health, B.S.

1. Advocate for health promotion and disease prevention: Address cultural, social, behavioral, and environmental factors that contribute to disease progression and health promoting behaviors as part of a health promotion program or intervention. Understand health promotion and disease prevention.

2. Educate, Collaborate and Engage: Educate, collaborate and engage with external partners from a variety of disciplines to promote healthy choices, including physical activity at multiple settings and in a variety of populations.

3. Work with partners to promote health/physical activity: Work with organizations and individuals to capitalize on complementary strengths, capabilities, resources and opportunities for the promotion of PA.

4. Communicate effectively: Apply a variety of communication methods and techniques.

5. Contribute to the broader community via various activities: Community Health students are required to complete a minimum of 6 hours of service learning. Students are also encouraged to participate in additional community service orientated volunteer opportunities.

6. Demonstrate in-depth knowledge, values and abilities: How well do students demonstrate that they have attained an in-depth knowledge, values, and abilities associated with Community Health.

7. Demonstrate proficiency in writing/speaking English: Students present on community health related topics to peers and professors and are evaluated on the clarity and effectiveness of their speech and written (PowerPoint) text. Students complete written papers that require interpretation and analysis of peer-reviewed journals related to the field of community health. Students demonstrate a basic understanding of various community health topics through verbal presentations. Students demonstrate the ability to interview for a community health related position.

8. Plan programming using evidence: Initiate a plan of action and review and recommend best and evidence-based practices and procedures for the development and implementation.

### Suggested Semester Schedule | Community Health, B.S.

The following is a list of required Community Health Major, B.S. courses arranged by year. This schedule is intended to help students plan their courses in an orderly fashion; however, these are only suggestions and this schedule is flexible.

#### Freshman

- BIOL1110  
or BIOL1400
- HLTH2100
- Core Curriculum requirements

#### Sophomore

- BIOL1111
- PHED1890
- HLTH2800  
or SOWK2110
- HLTH3150
- HLTH3200
- Complete Core Curriculum requirements

#### Junior

- HLTH3300
- HLTH3500
- HLTH3710
- HLTH3970
- PSY3401  
or STAT3660
- Major electives

#### Senior

- HLTH4410
- HLTH4920
- PHED4309
- HLTH4970
- Major electives

## Health Education, B.S. *major* (Teacher Licensure)

---

Required Credits: 70

Required GPA: 2.50

### I REQUIRED COURSES

Select 1 of the following courses:

- BIOL 1110 Human Biology (4 credits)
- BIOL 1400 Cellular Principles (4 credits)

Complete the following courses:

- BIOL 1111 Anatomy and Physiology for Allied Health I (4 credits)
- HLTH 2100 First Aid and CPR/AED (1 credit)
- HLTH 3150 Theoretical and Ethical Foundations of Health (3 credits)
- HLTH 3200 Personal and Consumer Health (3 credits)
- HLTH 3300 Nutrition (3 credits)
- HLTH 3500 Community Health (3 credits)
- HLTH 3710 Disease Prevention and Epidemiology (3 credits)
- HLTH 4206 Secondary School Health (2 credits)

- HLTH 4410 Health Programming (3 credits)
- PHED 3300 Physiology of Exercise and Nutrition (3 credits)
- PHED 4309 Legal Aspects of Sport, Health, and Fitness (3 credits)

Complete the following course:

- HLTH 4920 Directed Group Study: Health Seminar (1 credit)

Complete the following course:

- HLTH 4870 Practicum in Health Teaching (1 credit)

## REQUIRED PROFESSIONAL EDUCATION COURSES

Complete the following courses with a minimum 2.50 GPA:

- ED 3100 Introduction to the Foundations of Public School Education (3 credits)
- ED 3110 Educational Psychology (3 credits)
- ED 3140 Human Relations In Education (3 credits)
- ED 3350 Pedagogy: Planning for Instruction (3 credits)
- ED 3780 Adaptation and Management: Designing the Learning Environment (3 credits)
- ED 4737 Content Area Reading (3 credits)
- ED 4799 The Professional Teacher (1 credit)

Complete the following course:

- HLTH 3400 Health and Drugs in Society (2 credits)

Complete 12 credits of student teaching:

- ED 4830 Student Teaching - Secondary (1-12 credits)

## Program Learning Outcomes | Health Education, B.S. (Teacher Licensure)

1. Prevent Accidents and Reduce the Risk: A teacher of health understands behaviors and factors that prevent or reduce the risk of accidents, sudden illness, and violent injuries; including prevention or reducing the risk of tobacco use, or alcohol and other drug abuse.

2. Philosophy of Health Promotion: A teacher of health understands concepts related to health promotion and disease prevention including: the need for and role of a philosophy of health, health education, and health promotion.

3. Individual Responsibility: A teacher of health understands health-enhancing behaviors that reduce health risks including: the importance of individual responsibility for health.

4. Effects of Media on Behavior: A teacher of health understands the effects of advertising, media, technology, and social norms on health behaviors.

5. A teacher of health understands how to use interpersonal skills to enhance health including: Models and strategies for teaching communication skills for expressing needs, wants and feelings, communication, care, consideration, and respect for self and others; conflict resolution, and refusal skills.

6. A teacher of health demonstrates an understanding of the teaching of health that integrates: Understand and apply research base for and the best practices of middle and high school education.

7. Health Pedagogy: A teacher of health demonstrates an understanding of the teaching of health pedagogy, students, learning, classroom management, and

professional development.

## Suggested Semester Schedule | Health Education, B.S. (Teacher Licensure)

The following is a list of required Health Education Major, B.S. courses arranged by year. This schedule is intended to help students plan their courses in an orderly fashion; however, these are only suggestions and this schedule is flexible.

Freshman

- BIOL1110  
or BIOL1400
- HLTH2100
- Core Curriculum requirements

Sophomore

- BIOL1111
- HLTH3150
- HLTH3200
- Complete Core Curriculum requirements
- Take the Minnesota Teacher Licensure Exam (MTLE) Basic Skills test

Junior

- Begin Professional Education Standards of Effective Practice (SEP) courses
- HLTH3300
- PHED3300
- HLTH3500
- HLTH3710
- HLTH4206
- HLTH4970

Senior

- HLTH4410
- HLTH4920
- PHED4309
- Complete Professional Education Standards of Effective Practice (SEP) courses
- Student teaching

## Health Promotion and Education Minor *minor*

Required Credits: 21

Required GPA: 2.00

### I REQUIRED COURSES

COMPLETE THE FOLLOWING COURSES:

- HLTH 3150 Theoretical and Ethical Foundations of Health (3 credits)
- HLTH 3200 Personal and Consumer Health (3 credits)
- HLTH 3300 Nutrition (3 credits)
- HLTH 3500 Community Health (3 credits)
- HLTH 3710 Disease Prevention and Epidemiology (3 credits)
- HLTH 4410 Health Programming (3 credits)

### II REQUIRED OPTION

Select one of the following options (Community Health and Health Education majors may not double count courses in either option).

#### Option A: Promotion

Select 3 of the following courses:

- HLTH 2800 Multicultural Health in America (2 credits)
- HLTH 3400 Health and Drugs in Society (2 credits)
- PHED 1240 Skills for Life: Techniques of Neuromuscular Relaxation (1 credit)
- PHED 2200 A Lifestyle for Wellness (2 credits)
- PHED 3300 Physiology of Exercise and Nutrition (3 credits)
- PHED 4160 Advanced Fitness Assessment & Prescription-Aerobic (3 credits)
- PHED 4170 Advanced Principles for Strength and Speed Training Exercise (3 credits)
- PSY 2200 Human Sexuality (4 credits)
- PSY 2217 Psychopathology and Wellness (4 credits)
- PSY 3237 Lifespan Development (4 credits)
- PSY 3367 Social Psychology (4 credits)
- PSY 3387 Topics in Psychology (1-4 credits)
- INST 1107 or other INST courses up to 6 credits total in consultation with advisor.

Up to 6 credits of NRSRG accepted; note that most NRSRG courses are for Nursing majors only.

### Option B: Pedagogy

Complete the following courses:

- HLTH 4206 Secondary School Health (2 credits)
- HLTH 4970 Internship (1-12 credits)

## Red Cross Community First Aid Certification *cert*

### REQUIRED COURSE

- HLTH 2100 First Aid and CPR/AED (1 credit)  
or HLTH 2200 First Aid and CPR/AED Instructor (1 credit)

## Red Cross First Aid Responder Certification *cert*

### REQUIRED COURSE

- HLTH 3600 Emergency Response (3 credits)

## Health Courses

### HLTH 2100 First Aid and CPR/AED (1 credit)

An introduction to emergency action principles, first aid, and CPR/AED (automated external defibrillation) for lay responders. American Red Cross Adult and Pediatric First Aid/CPR/AED (valid 2-years) certificate may be earned. Recommended as a basic course for professional educators.

### HLTH 2200 First Aid and CPR/AED Instructor (1 credit)

Designed to prepare First Aid and CPR/AED students to become instructors for Lay Responder First Aid and CPR/AED. American Red Cross Instructors Certificate may be earned. Recommended as an advanced course for professional educators. Law enforcement personnel are also encouraged to consider the course. Prerequisite: HLTH 2100 or equivalent.

### HLTH 2800 Multicultural Health in America (2 credits)

An examination of the health issues and problems that ethnic minority populations in America face; specifically, those faced by African Americans, Indian Americans, Hispanic Americans and Americans of Asian-Pacific Island descent, etc. Since a disproportionate number of health problems face these minority groups, this course attempts to: a) examine specific problems facing these minority population groups b) evaluate what is known and unknown about these specific problems and c) a re-evaluation and reorganization of the current health care system in America to resolve these special problems in health care delivery d) lastly, this course will explore cultural health attitudes, issues and beliefs of different population groups (elderly, adolescence, men/women, etc). Besides the health major, this course can apply to [Core Curriculum Category 7].

### HLTH 2925 People of the Environment: A Health Perspective (3 credits)

This course builds upon the principles discussed in the large group, focusing greater attention on health issues related to the environment, including the food supply, water quality, air quality, and other environmental health risks. These are discussed in the context of common diseases such as cancers, asthma, communicable diseases, and other health problems associated with the environment. [Core Curriculum Goal Area 10]

### HLTH 3150 Theoretical and Ethical Foundations of Health (3 credits)

Provides entry level health education and community health students with the theoretical and ethical foundations of health. Also examines health's history, philosophy, settings, literature, and credentialing.

### HLTH 3200 Personal and Consumer Health (3 credits)

A comprehensive study of personal health identifying ill-advised health behaviors and recommending strategies for positive behavioral change. From an opportunity cost perspective, personal health care options, products and services in the marketplace will be examined. Opportunities to network with local, state and federal consumer health agencies will be provided. Prerequisite or Co-requisite: For Community Health and Health Education majors and Health Promotion and Education minors: HLTH 3150; Non-majors/minor may select this class with consent of instructor.

### HLTH 3300 Nutrition (3 credits)

Fundamentals of food utilization in the body and diet planning including discussion of the relationship between dietary habits and disease. Also included are discussions of current trends in nutrition, dietary changes for special conditions such as pregnancy, infancy, teenagers, aging, athletes, and cultural differences in dietary practices.

### HLTH 3400 Health and Drugs in Society (2 credits)

A study of chemical use and abuse as related to personal and community health. Various drugs and drug-taking behaviors will be defined and discussed. Historical, cultural, educational, and legal perspectives will be examined. Multi-faceted prevention and rehabilitation strategies promoting wellness will be discussed. Prerequisites: Sophomore status and a declared major area of study that requires this course.

### HLTH 3500 Community Health (3 credits)

Comprehensive study of the community health challenges confronting the citizenry of the United States of America. Examines the roles of federal, state, and local governments, as well as private agencies, in individual and aggregate health care. Provides opportunities for community health networking. Prerequisites: For health majors/minors: HLTH 3150 and HLTH 3200; For non-majors/minors: Consent of instructor.

### HLTH 3600 Emergency Response (3 credits)

Designed to provide advanced students the knowledge, skills and training to administer initial first aid in emergencies. American Red Cross advanced certificate may be earned. Ideal course for law enforcement personnel, athletic trainers, and juvenile officers. Prerequisite: HLTH 2100 or equivalent.

**HLTH 3710 Disease Prevention and Epidemiology (3 credits)**

An introduction to disease prevention, pathophysiology, and treatment of the most common communicable and chronic diseases in human populations. Focuses on the history and principles of disease occurrence in the context of environment and lifestyle choice. Students specifically examine risk factor management and the epidemiological data supporting the influence of physical activity in chronic disease prevention and management. Additionally, learners gain an introductory knowledge of epidemiology and biostatistics enabling them to successfully critique the scientific and educational literature. Prerequisites: For Community Health and Health Education majors: BIOL 1110, HLTH 3150, HLTH 3200, and HLTH 3500; For non-majors and the Health Promotion and Education minor: Consent of instructor.

**HLTH 3970 Internship: Field Experience in Community Health (1-3 credits)**

When taken as Field Experience in Community Health the following description applies: Community health majors will gain a 30-90-hour experience in a local health facility in preparation for the application of previous course work. Prerequisites: HLTH 3150 and HLTH 3200.

**HLTH 4100 Teaching Elementary School Health (2 credits)**

An integrated approach to the organization, content, goals, objectives, curriculum, methods and techniques of teaching health at the elementary level. Coordinating services and establishing collaboration will be incorporated. Elementary school state and national guidelines and mandates will be discussed. Teaching opportunities will be provided. Prerequisite: entrance into the teacher education program.

**HLTH 4206 Secondary School Health (2 credits)**

An integrated approach to the organization, content, goals, objectives, curriculum, methods, and techniques of teaching health at the secondary school level. Incorporates coordinating services and establishing collaboration. Secondary school state and national guidelines and mandates are discussed. Prerequisite: Entrance into the teacher education program or consent of instructor.

**HLTH 4410 Health Programming (3 credits)**

A comprehensive study of the process of identifying health problems, establishing health programming, and promoting, implementing, and evaluating the program. Also examines vision and mission statements, along with goals, objectives, timetables, and interpretation of results. This course parallels CHES criteria and utilizes a local community health organization to integrate student involvement. Prerequisites: For health majors/minors: HLTH 3150, HLTH 3200, HLTH 3500, HLTH 3710; For non-majors/minors: Consent of instructor.

**HLTH 4870 Practicum in Health Teaching (1 credit)**

A 30-hour practicum in which students have the opportunity to teach health lessons, assist health teachers deliver health instruction, observe health teachers deliver health instruction, read to students, listen to students read, tutor students, and perform other duties as required by the Professional Educator Licensing and Standards Board (PELSB) and requested by the health teacher. Prerequisite(s): Entrance into the teacher education program, or consent of instructor.

**HLTH 4917 DIS Tchg Assoc | (1-2 credits)**

Directed Independent Study | Teaching Associate

**HLTH 4920 Directed Group Study: Health Seminar (1 credit)**

When taken as Health Seminar the following description applies: Intended as a capstone course to prepare the health major for employment, internship/job procurement, or continuing education in a graduate program. This course integrates discussion of strategies for professional development, as well as providing quality written composition on employment/graduate program goals and objectives. Prerequisite: Senior status or consent of instructor.

**HLTH 4970 Internship (1-12 credits)**

When taken for the Community Health major the following description applies: Students will gain field experience in a health-related facility relevant to specific career goals. Opportunities will exist for the student to apply the different concepts and theories from course work directly in the work setting through observation, planning, decision-making, committee participation, leadership, operation management, and individual and group projects. Required: A minimum of 30 practicum hours per credit. Prerequisite: completion of all health course work and degree requirements.

**All-University Courses**

The course numbers listed below, not always included in the semester class schedule, may be registered for by consent of the advisor, instructor, or department chair, or may be assigned by the department when warranted. Individual registration requires previous arrangement by the student and the completion of any required form or planning outline as well as any prerequisites.
