

Criminal Justice

The Criminal Justice major provides students with knowledge about the nature and causes of crime and delinquency, law and the legal system for juveniles and adults in American society, and the decision-making processes of criminal justice agencies. The purpose of a Criminal Justice major within a liberal arts framework is to develop the knowledge, values, and ethical consciousness that are essential for becoming successful managers and leaders in criminal justice and related human service vocations.

The Bachelor of Science degree in Criminal Justice is a generalist degree preparing students for careers in law enforcement, corrections, and other public and private agencies concerned with the prevention and investigation of crime. The program allows majors to choose one of four areas of specialization within the discipline that best prepares them for their career choice. This preparation includes a combination of course work, internships, and special research projects. Students considering this major are encouraged to develop a proficiency in writing. The degree is also appropriate for students who choose to pursue advanced study in criminal justice or law.

Completion of the Criminal Justice degree or Minnesota Peace Officer Certificate at Bemidji State University are pathways to satisfy the requirements of the Minnesota Peace Officer Standards and Training Board (POST). Students interested in pursuing peace officer licensing must consult with the Professional Peace Officer Education Coordinator at Bemidji State University to ensure they meet all additional program and licensure eligibility requirements. In addition to additional academic requirements, students seeking licensure must complete a "skills" program and obtain certification as an Emergency Medical Responder.
