Welcome to the Bemidji State University Department of Nursing!

The curriculum in the nursing program is designed to teach, challenge, and excite you on your journey to becoming an independent learner and a successful professional nurse. To complete this rigorous program and to practice effectively as a professional nurse, you must demonstrate competency in many areas. A student nurse must perform all essential functions with or without accommodations. You have to take an active role in your education. This resource manual will help you as your progress through the nursing program.

This *Student Resource Manual* is intended to provide you, the nursing student, with the information you need to successfully manage your educational career at BSU. The information provided is specific to the Department of Nursing and is supplementary to the *BSU Undergraduate Catalog* ([http://www.bemidjistate.edu/academics/catalog](http://www.bemidjistate.edu/academics/catalog)) and *BSU Student Handbook* ([http://www.bemidjistate.edu/offices/student-affairs/handbook/](http://www.bemidjistate.edu/offices/student-affairs/handbook/)), essential documents of Bemidji State University. *Each student is responsible for the contents in these references.*

The *Department of Nursing Student Resource Manual* applies for each academic year. It is updated and posted on our website annually; current students are notified via email when the new version is available and provided with a summary of substantive changes effective immediately for all students. If significant changes in policies/procedures are made and implemented at a time other than the annual update, students will be notified of the changes via email and changes will be effective immediately. We hope this *Resource Manual* is helpful to you. We welcome any recommendations and/or comments.

In addition to this and other written resources, faculty advisors are an invaluable source of information and guidance. Every student is assigned an advisor who is prepared to assist you with program planning, degree completion and other questions pertaining to university life. We encourage you to meet with your advisor regularly to ask questions and seek additional information.

The Department of Nursing wishes you much success on your educational journey!

Curriculum & Structure

Goals of the Department of Nursing

In support of the institutional mission, the goals of the Bemidji State University baccalaureate nursing program are to:

1. Prepare nursing students to enter professional nursing practice.
2. Maintain academic excellence, which includes national accreditation and the recognition of standards/directions within the discipline, Minnesota Board of Nursing, and communities of interest.
3. Maintain a contemporary curriculum that promotes the development of a professional nurse who embodies a humane, holistic view of people. Implement educational strategies and practices conducive to the personal and professional development of students.
4. Students will demonstrate responsible use of knowledge and critical inquiry to address professional nursing practice in a changing society and in a variety of settings.
5. Utilize an effective shared governance model that is congruent with the institution, the program and the needs of the learners.
6. Acquire and allocate resources to provide a positive learning environment.
7. Recruit and retain qualified and diverse students committed to academic excellence and professional development.
8. Recruit and retain qualified faculty who contribute to the university, the profession, and service and scholarly endeavors.

Vision & Mission

Department of Nursing Vision:
We educate professional nurses to lead inspired lives.

Department of Nursing Mission:
To engage in scholarship that supports the development of critical thinkers, creative problem solvers, and innovative leaders in care delivery. (Essentials 1, 2 and 3)

To teach and support professionalism and professional values in the care of individuals and populations across diverse cultures, ages, and environments. (Essentials 7, 8 and 9)

To educate the baccalaureate nurse generalist for a future that includes lifelong learning and professional practice. (Essential 1)

Philosophy

Humankind – Health
Human beings are viewed holistically. Each individual and each group is a complex integration of biological, psychological, social, cultural, and spiritual dimensions.

Human beings are unique, autonomous, and possess inherent dignity, worth, and rights. We exist dependently, independently, and interdependently. Rights infer responsibilities within each individual’s capacity.

Growth and change may be multifaceted, influenced by individual differences in personal potential and by subjective meanings and values.

Health involves a complex, multidimensional phenomenon influenced by biological, psychological, social, cultural, and spiritual variables.

Health is individually defined and subjectively perceived. Internal and external forces and resources influence health.

Human beings experience varying states of health during their lives.

Nursing
The provision of nursing care, as part of the health care system, is influenced by legal, political, economic, social, and global forces. Humane, quality health care is a right and should be equally accessible to all people.

People have the right to make informed decisions in regard to their health and health care. Nursing addresses human responses to life experiences and varying states of health and illness.

Nursing is involved with the promotion, attainment, and preservation of optimal health and the amelioration of suffering.

Nursing supports human beings in growth and change to maximize health potentials across the lifespan and/or to support a peaceful death.

Nurses assess, design, provide, manage, and coordinate care for individuals, families and communities/populations representing diverse cultures, values, and beliefs.

Nursing is guided by a respect for human dignity and requires a commitment to caring. Nurses respect and encourage client autonomy.

Nursing practice is conducted in a variety of contexts. Critical reflective thought, liberal education, professional knowledge, practice abilities, life experiences, and the values of the individual provide the foundation for nursing practice.

Ethical professional behavior and decision-making abilities are essential in one’s practice and relationships.
Membership in the discipline of nursing involves a commitment to excellence; advocacy for nursing and humane, quality health care; accountability for one’s individual practice; responsible inquiry; and continued professional growth.

Professional nursing practice is influenced by and contributes to society. Inherent to addressing the health needs of people and the evolution of nursing as a discipline are collaboration with other groups, use of knowledge in refining practice, and the critical examination of nursing practice.

**Learning**

Baccalaureate nursing education fosters self-directed learning to enable nurses to understand the meaning of their experiences and to realize values in their practice.

Baccalaureate education prepares graduates to serve as generalists in nursing practice and serves as a basis for graduate study.

The learning environment encourages participants to critically examine assumptions, to explore alternative views, and to support the development of expanded or new perspectives.

Learning is a complex process. Though some forms of learning may be predictable and observable, not all significant learning can be equated to measurable changes in behavior. Learning includes the individual meaning that emerges for the learner.

Faculty serve as resources and facilitators in the learning process. The learning environment provides for mutual respect, engages the learner in learning, and assists the learner in examining perspectives upon which practice is conducted.

Experiential learning provides an arena whereby knowledge, practice, and individual meanings may be critically examined. Critical thought and reflection enhance the development of autonomy and empowerment for personal and professional growth.

Curriculum Outcomes – Essentials of Baccalaureate Education

Elements addressed in the BSU Nursing Program include:

1. **Liberal Education for Baccalaureate Generalist Nursing Practice**
   - A solid base in liberal education provides the cornerstone for the practice and education of nurses.

2. **Basic Organizational and Systems Leadership for Quality Care and Patient Safety**
   - Knowledge and skills in leadership, quality improvement, and patient safety are necessary to provide high quality health care.

3. **Scholarship for Evidence-Based Practice**
   - Professional nursing practice is grounded in the translation of current evidence into one’s practice.

4. **Information Management and Application of Patient Care Technology**
- Knowledge and skills in information management and patient care technology are critical in the delivery of quality patient care.

5. **Health Care Policy, Finance, and Regulatory Environments**
   - Healthcare policies, including financial and regulatory, directly and indirectly influence the nature and functioning of the healthcare system and thereby are important considerations in professional nursing practice.

6. **Interprofessional Communication and Collaboration for Improving Patient Health Outcomes**
   - Communication and collaboration among healthcare professionals are critical to delivering high quality and safe patient care.

7. **Clinical Prevention and Population Health**
   - Health promotion and disease prevention at the individual and population level are necessary to improve population health and are important components of baccalaureate generalist nursing practice.

8. **Professionalism and Professional Values**
   - Professionalism and the inherent values of altruism, autonomy, human dignity, integrity, and social justice are fundamental to the discipline of nursing.

9. **Baccalaureate Generalist Nursing Practice**
   - The baccalaureate-graduate nurse is prepared to practice with patients, including individuals, families, groups, communities, and populations across the lifespan and across the continuum of healthcare environments.
   - The baccalaureate graduate understands and respects the variations of care, the increased complexity, and the increased use of healthcare resources inherent in caring for patients.

**Shared Governance**

The Department of Nursing uses a shared governance committee structure for decision making, program evaluation and establishment of mission and policies.

Students are an important part of shared governance. Their input and feedback provide the department with valuable information that contributes to a better program.

Department of Nursing committees meet approximately once per month. All regular department faculty meetings are open, except those at which personnel or students are discussed. Students are welcome to attend, present at, or participate in discussions at all regular department faculty meetings and standing committee meetings.

Students anticipating enrollment or currently enrolled in the nursing major may communicate concerns and requests in writing to the appropriate committee chairperson or to the Chief Nursing Administrator (CNA). Special requests or presentations shall be communicated in writing to the committee chairperson for placement on the agenda. The schedule of regular meetings will be posted in advance of each semester.
**Department Standing Committees**
The Department of Nursing standing committees are: Curriculum Committee; Student Admission, Progression, and Concerns Committee; Academic Resources Committee; Faculty and Budget Committee; Department of Nursing Chairs Committee; and the Student Input Forum.

The **Curriculum Committee** functions, in conjunction with faculty and within the parameters of institutional policies, to determine elements related to the curricula including course content, evaluation, and prerequisites.

The **Student Admission, Progression, and Concerns Committee** determines policies regarding admission, progression, graduation, student advisement, and retention, and makes decisions about individual student grievances.

The **Academic Resources Committee** determines student resource needs, faculty and support staff resource needs, and program administration needs, as well as resource and space utilization, e.g., space, equipment, library, software, laboratory, and clinical facilities.

The **Faculty and Budget Committee** determines policies regarding departmental function, faculty and staff needs, and general program operations.

The **Department of Nursing Chairs Committee** is made up of all the standing committee chairs and the CNA.

**Student Input Forums** function to provide a communication and evaluation link between students and faculty. Student Input Forums will be scheduled annually. They will be open forums to allow students to provide input into all areas of the nursing programs. The CNA will schedule and facilitate the forums. These forums serve in an advisory capacity. Matters relating to the students will be brought before the students for their input and recommendations.

Admission, Progression & Retention

**Admission**

Formal admission is required for the baccalaureate nursing major and is separate from admission to Bemidji State University. Admission procedures differ between the 4-Year Track and RN-BS Track and are explained in detail on the department website: [http://www.bemidjistate.edu/academics/departments/nursing/apply/](http://www.bemidjistate.edu/academics/departments/nursing/apply/).

Students wishing to apply to the program a second time must complete a new application. Students will only be allowed to apply to the nursing major twice.

Revised 6/17

**Advising**

1. Students are assigned faculty advisors after admission to the major. Advisee-advisor assignments are posted on the student’s BSU portal and listed at the top of the Interactive Degree Audit Report (DARS).

2. Advisees may request an advisor change at any time by completing the written request form provided by advising@bemidjistate.edu.

3. The faculty advising role focuses on assisting the student with academic advising. Students are encouraged to meet with advisors for academic planning and registration. It is the student’s responsibility to initiate meetings with the advisor. It is the advisor’s responsibility to lend support and guidance as requested.

4. Other university support services are available through referral and provide information concerning resources to students.

5. Students are required to meet the BSU Liberal Education requirements (see the BSU Undergraduate Catalog) in order to graduate, or they may transfer in an AA degree or complete the Minnesota Transfer Curriculum through another educational institution. The liberal education requirements are very specific. Therefore, students should be sure to only select classes that are listed as options for the applicable goal areas.

6. The course and credit requirements for the nursing major are described in the BSU Undergraduate Catalog. It is the student’s responsibility to read the Catalog and be familiar with all the requirements.

7. Graduation requirements may be found at the BSU Records and Registration website.

**Academic Evaluation of Nursing Courses**

*Grading Standard within Courses*

1. After being admitted into the nursing program, all nursing courses must be passed with a minimum of 75% or “C”.

2. The Department of Nursing grading standard is as follows:
93-100 = A
84-92 = B
75-83 = C
68-74 = D
<67 = F

Note: The Department of Nursing does not use plus and minus grades.

3. The grading standard will be included in every syllabus within the evaluation section.
4. The professor reserves the right to lower grades when assignments are submitted late. Unusual circumstances will be taken into consideration.
5. Students who pass an assignment will not be allowed to repeat the assignment for a better grade.
6. Students who earn less than a “C” on an assignment may be allowed to redo the assignment if the faculty member permits. Students who are allowed to repeat assignments will receive a grade no higher than a “C” on that assignment.
7. Exams, homework, quizzes, graded assignments and final grades will be the percentage achieved. **Rounding is not done.**
8. Courses in the 4-Year Track may follow the following grading policy for course exams/quizzes:
   - Students must earn a “C” (75%) or better in the cumulative score of exams in order to pass the course. The cumulative score of the exams will not be rounded up. If the cumulative score for the exams is a “D” or “F” that is the grade for the course.
   - If the cumulative exam score of 75% is achieved, homework, quizzes, and other graded assignments will be included.
9. Students wanting to contest a grade should follow the Academic Grade Challenge Policy found in the **BSU Student Handbook**.

**Incompletes**
10. An incomplete will be given only when the student has made a request to the professor prior to the end of the semester. Prerequisite courses must be completed prior to beginning courses the next semester. This policy supersedes the BSU policy for incompletes.

Revised 5/14, 5/15, 5/16, 6/17, 1/18, 5/18, 5/19

---

**Attendance**

Attendance (on campus and online) is required. Responsibility lies with the student to communicate with the course instructor regarding absences. Individual consequences for missed classes are at the instructor’s discretion. Refer to individual course syllabi for course specifics.

**Changes in Contact Information**

Students must submit any changes in name, address, phone number and email address to the Department of Nursing and the Records Office.
### Computer Requirements

1. All RN-BS students must have access to a computer and high-speed internet.
2. All 4-Year Track students are required to have a laptop computer and a minimum 8 GB hand-held device.
3. Further university IT recommendations and resources are listed here: [http://www.bemidjistate.edu/offices/its/hardware-software/techrecommendations/](http://www.bemidjistate.edu/offices/its/hardware-software/techrecommendations/)

### Continuing and Discontinuing Enrollment

RN-BS students may enroll in the nursing major on a part-time or full-time basis; part-time students are encouraged to work with their advisors on a course progression schedule. Students may transition to part-time status at any time.

Students not continuing enrollment in nursing courses, other than by dismissal, are requested to communicate with their advisors about their decision and to discuss plans for returning to the program.

Students enrolled in the RN-BS major must complete all nursing course requirements within a six year period after initial enrollment in nursing courses.

Revised 5/16, 6/17, 1/18, 5/19

### Critical Standards

The following are considered to be critical standards, in addition to satisfactory academic achievement, within the program:

1. The Department of Nursing and affiliated agency policies, procedures, and communication protocols are followed.
2. Critical incidents are recognized and reported to appropriate agency personnel and departmental faculty.
3. The confidentiality of client records and situations is appropriately maintained.
4. Students are expected to practice the highest standards of ethics, honesty and integrity in all of their academic work. The most current *Publication Manual of the American Psychological Association (APA)* serves as the format for all papers assigned in the BSU Department of Nursing. Any form of academic dishonesty (e.g., plagiarism, cheating, misrepresentation) may result in disciplinary action. Possible disciplinary actions may include failure for part or all of a course, as well as suspension from the University.
5. The student’s physical and emotional health, conduct, values, and attitudes must not threaten the safety or welfare of self, clients, students, or others within the department and affiliated agencies.
6. Nursing practice is conducted safely within the scope of practice as established by the Minnesota Board of Nursing.
7. All students will follow the *Code of Ethics for Nurses*:
   a. The nurse practices with compassion and respect for the inherent dignity, worth, and unique attributes of every person.
b. The nurse's primary commitment is to the patient, whether an individual, family, group, community, or population.

c. The nurse promotes, advocates for, and protects the rights, health, and safety of the patient.

d. The nurse has authority, accountability, and responsibility for nursing practice; makes decisions; and takes action consistent with the obligation to promote health and to provide optimal care.

e. The nurse owes the same duties to self as to others, including the responsibility to promote health and safety, preserve wholeness of character and integrity, maintain competence, and continue personal and professional growth.

f. The nurse, through individual and collective effort, establishes, maintains and improves the ethical environment of the work setting and conditions of employment that are conducive to safe, quality health care.

g. The nurse, in all roles and settings, advances the profession through research and scholarly inquiry, professional standards development, and the generation of both nursing and health policy.

h. The nurse collaborates with other health professionals and the public to protect human rights, promote health diplomacy, and reduce health disparities.

i. The profession of nursing, collectively through its professional organizations, must articulate nursing values, maintain the integrity of the profession, and integrate principles of social justice into nursing and health policy.

8. It is the responsibility of the student to choose behavior conducive to learning by being prepared, prompt, attentive, and courteous in the classroom and by conforming to policies set by the faculty to maintain an academic decorum. The Bemidji State University Student Code of Conduct will be closely adhered to by the department. All students and faculty are expected to treat everyone with respect and can expect to be treated courteously by others.

Failure to meet these standards will result in review by the Student Admission, Progression and Concerns Committee and may constitute immediate withdrawal from a course, and/or a failure in a course, and/or dismissal from the major.

Revised 5/14, 5/16, 1/18
Reviewed 6/17, 5/19

**Departmental Student Records**

An advisory folder for each student is initiated upon acceptance into the nursing program. Files for current 4-Year Track students are maintained in the Department of Nursing; files for current RN-BS Track students are maintained in the Center for Extended Learning.

While the student is actively enrolled in the nursing major, the following are maintained digitally, either in the student file or in the clinical eligibility tracking software:

1. Letters regarding admission status
2. Background study notification letters (4-Year Track)
3. Evidence of current immunization records (4-Year Track)
4. Miscellaneous correspondence related to academic status, grievances, awards, or recommendations
5. Disciplinary forms
After graduation, the student folder will be maintained for a minimum of two years before being destroyed. A cumulative record of graduate contact information will be maintained by the department to facilitate contact with alumni. Aggregate data will also be maintained for the purpose of program evaluation and other such activities. Permanent transcripts are maintained in the Records Office.

**Student Advisory Folder Procedures**

1. Hard copy student folders will be maintained in a supervised area in a file cabinet accessed only by faculty and staff (hard copy files are being phased out). Digital student folders will exist on the BSU server (J: drive) in a location accessible only to faculty and staff.
2. Student folders are to be accessed/used only within the supervised department area.
3. If a student wishes to review his/her departmental folder, it will be secured from and reviewed in the presence of the department administrative assistant or faculty and returned for filing.
4. Items listed above may be placed in the student folder by the departmental staff/faculty. Students may submit records of honors, awards, published articles, and other such items to their faculty advisor for inclusion in the student file.
5. A student may review his/her student folder and appeal to the Student Admission, Progression, and Concerns Committee for removal of items considered to be inaccurate, misleading, or otherwise in violation of privacy or other rights. If the appeal fails, the student has the right to add a written rebuttal to the record and/or proceed through the grievance procedure as described in the BSU Student Handbook.
6. Student coursework is maintained in faculty offices for two years, after which time it will be destroyed. Such material may be available upon request to faculty.

Revised 2/06, 5/14, 5/16, 5/17, 5/18

---

**Exposure/Injury Protocol**

Students who are injured while participating in classes or other activities on campus should follow the procedures suggested by Student Health and Counseling and the office of Environmental Health and Safety.

**Universal blood and body substance precautions and blood-borne pathogens** information will be posted in the nursing lab and provided to students through course materials.

Students participating in off-campus clinical learning experiences will follow individual agency protocols. For example, if a nursing student is participating in a clinical experience at the Boys and Girls Club and sustains an injury, the Boys and Girls club policy will be followed. Neither the clinical agency nor BSU will be responsible for medical costs.

Established: 6/17

---

**Malpractice Policy/Procedure**
Student malpractice insurance coverage for practice in clinical areas will be automatically provided by the University and paid for with differential tuition. This insurance is to cover situations pertaining to injury of others.

Revised 5/15

### Plagiarism/Academic Dishonesty

Students are expected to practice the highest standards of ethics, honesty and integrity in all of their academic work. The most current *Publication Manual of the American Psychological Association (APA)* serves as the format for all papers assigned in the BSU Department of Nursing.

Any form of academic dishonesty may result in disciplinary action including: a Documentation of Unprofessional Behavior/Practice form filed and reviewed by the Student Admission, Progressions and Concerns committee and BSU Conduct Officer; failure of the assignment or project; failure of the course; and/or expulsion from the University.

The following definitions and examples are provided to help students determine what will be considered academic dishonesty/plagiarism and how to avoid it:

- **Plagiarism**: submitting coursework as one’s own that includes words, thoughts and ideas from another author without proper citation (author, date, page number). Direct quotes must include quotation marks in addition to proper citation.
- **Paraphrasing**: rewording an author’s words, thoughts and ideas to demonstrate individual perspective and understanding. The author is acknowledged for his/her original words, thoughts, and ideas through proper citation.

Other instances of academic dishonesty include, but are not limited to, giving or receiving unauthorized assistance on an examination; unauthorized collaboration on individual assignments; providing false information (e.g., family emergency, death or illness) to obtain an extension or exemption from an assignment; or any act designed to provide a student with an unfair advantage or the attempt to commit such acts.

#### Examples:

1. Working with one or more other students on an individual assignment and submitting the work as your own.
2. Submitting the work of others as your own.
3. Submitting the work of others as your own with minimal changes.
4. Submitting others’ work, in part or whole, without quotation marks, adequate paraphrasing, or proper citation.
5. Submitting the same work, in part or whole, for more than one course without both instructors’ approval, or with only minimal revisions to the original work that has already received credit and submitting again as new work.
6. Taking an examination for another person.
7. Sharing testing materials.
8. Sharing simulation scenarios.
9. Sharing clinical work.

Established: 5/16
Reviewed 5/18
Revised: 6/17, 5/19
Prerequisites within the Nursing Program

Several courses in the nursing curriculum are sequentially arranged. Progression to selected courses is based on successful completion (grade of “C” or better) of listed prerequisite courses.

A student who fails or withdraws from a course that is a prerequisite for a course in the following semester must stop out of the program until the needed course is available. This policy supersedes the BSU policy for incompletes.

Students seeking an alteration in the progression of courses and/or requirements in the nursing program should follow the grievance process described elsewhere in this document.

Revised 6/17

Program Evaluation

Students are requested to participate in individual course and program evaluations at various intervals. Evaluation surveys and procedures are provided by the department. Periodically, permission will be sought from individuals to make copies of course assignments for program evaluation.

Retention in the Major

The Department of Nursing reserves the right of retaining in the major only those students who, in the judgment of the departmental faculty, satisfy the requirements of scholarship, behavior, and health characteristics suitable for the profession.

When a student demonstrates professional and/or personal attributes that do not meet the standards of safe clinical practice and professionalism in clinical, classroom, lab or community settings, the Department of Nursing faculty will schedule a meeting with the student to initiate the Documentation of Unprofessional Behavior and/or Unsafe Practice (Appendix C). This process may result in a written warning, plan for remediation, failure of course or exit from the Nursing program.

Scholarships

Several scholarships are available for students who have been accepted into the nursing program. Applications are due in February each year for the following school year. Details about each scholarship and the application process can be found on the Department of Nursing website: http://www.bemidjistate.edu/academics/departments/nursing/scholarships/.
I. Policy
It is the policy of Bemidji State University Department of Nursing and affiliates to manage social media as an extension of marketing and communications on behalf of BSU entities. BSU respects the right of students/staff to participate in social media; however, the business needs of the BSU entities must be served while also maintaining their corporate identity, integrity, and reputation in a manner consistent with BSU’s mission, core values, policies, and applicable laws. BSU entities will investigate alleged violations of the policy and impose corrective action on the student/staff who fail to comply with state or federal laws or with organizational policies, standards, guidelines or procedures related to the use of social media.

II. Scope
This policy applies to BSU nursing students and staff when using social media while at work, home, campus, or anywhere when the student/staff’s affiliation with BSU, clinical or capstone site is identified, known or presumed.

III. Purpose
The purpose of this social media policy is to assist students/staff in understanding how social media applies to their BSU affiliation and their responsibilities when communicating through these methods.

IV. Definitions
1. Social Media: is primarily internet- and/or mobile-based methods of networking using web/mobile-based tools to communicate widely, quickly and easily for the purpose of sharing information and communicating with others. Such as, but not limited to:
   a. Facebook
   b. Twitter
   c. Myspace
   d. Texting
   e. Skype
   f. Instagram
   g. Snapchat

2. Protected Health Information (PHI): is any identifiable health information, including demographic information that contains:
   a. Past, present or future physical/mental health or condition of an individual
   b. Past, present or future payment for and individuals healthcare
   c. Identifies the individual, OR there is reasonable basis to believe the information can be used to identify the individual

3. When Using Social Media
   a. Students/staff using social media shall not:
      - Disclose BSU entities’, patients’, or affiliates’ confidential information or PHI
b. When using social media the student/staff will not express or represent his/her views as those of BSU unless he/she has been authorized to do so.

c. Students/staff photographing any individuals (patients, family, staff as example but not limited to) or physical structures must obtain written authorization from BSU or affiliates.

d. When using social media, the student must comply with all other policies and procedures of BSU and the Department of Nursing.

4. Compliance
   a. Students/staff shall receive notice of this policy at the beginning of each semester and may receive periodic education on its application and use.
   b. In accordance with federal and state laws, regulations, and BSU entity-related policies, BSU reserves the right to monitor student/staff social media activities and maintain detailed reports of social media usage.
   c. Students/staff found violating this policy may be subjected to corrective disciplinary action including but not limited to expulsion from BSU, criminal prosecution, or additional liability associated with other legal actions.
   d. Alleged violations require immediate reporting to the direct supervisor, BSU Department of Nursing chair, and/or the affiliate’s human resources and risk management.
   e. All violations will be investigated collaboratively with appropriate staff and legal officials to determine appropriate corrective and disciplinary action, up to and including expulsion.

Student Concerns and Grievances

Bemidji State University is committed to the safety and equitable treatment of all members of the university community. The student complaint process outlined below is designed to ensure all concerns and complaints of members of our student body are handled in a prompt and fair manner.

Although we hope the vast majority of our students can complete their education without feeling that they have been treated in an unjust or inequitable manner, there will be instances where student complaints are warranted and we are here to help resolve these issues.

BSU Policy Definitions

Grievance – A written claim raised by a student alleging improper, unfair, arbitrary, or discriminatory action by an employee involving the application of a specific provision of a university rule/regulation or a Minnesota State Colleges and Universities (MnSCU) Board policy or procedure. A grievance may also be about issues of institutional or program quality
such as Bemidji State University’s compliance with HLC standards, or a claim of consumer fraud or deceptive trade practices.

**Complaint** – A claim by a student alleging improper, unfair or arbitrary treatment. A complaint may also be about issues of institutional or program quality such as Bemidji State University’s compliance with HLC standards, or a claim of consumer fraud or deceptive trade practices.

**Appeal** – A request for reconsideration of a grievance application of a policy or procedure.

**Retaliation** – Retribution of any kind taken against a student for participating in a complaint or grievance.

**Student** – An individual student, a group of students, or the student government.

Policies that govern the student complaint processes can be found here. The Office of the Provost and Vice President for Academic and Student Affairs is available to advise and support students through the student complaint process.

**Department of Nursing Grievance Process**

The Department of Nursing takes student complaints seriously. Our goal is to ensure students have access to transparent, due process that leads to an appropriate resolution of the complaint in a timely manner. The Department of Nursing will follow BSU’s policies with exceptions related directly to admission to the nursing program, safe patient care and professional behavior of a nurse.

Grievances and complaints related to Department of Nursing policies or procedures will be heard by the department’s Student Admission, Progression and Concerns Committee (SAPC). Students with progression, policy, or procedure concerns must meet with their faculty advisor and submit a written grievance in a timely manner, using the process outlined below. SAPC will post its meeting dates online to facilitate planning for timely submission.

Faculty have authority in the courses they teach regarding course content, assignments and evaluations and will make the final decisions regarding these items. Examples include redoing assignments, rescheduling exams, questions regarding an evaluation or points awarded, test questions, and late assignments. These and other matters directly related to the course or coursework should be resolved with the faculty member(s) and may not be appealed through the Department of Nursing. Students wanting to contest a grade should follow the Academic Grade Challenge Policy in the BSU Student Handbook.

The full grievance process will be as follows:

Student discusses the complaint with his/her faculty advisor.

If a Student Grievance Form is appropriate, it should be submitted to the Department of Nursing Office. This form (Appendix D) can be found at the BSU Department of Nursing website on the Student Resource Manual page. The submission should include: (a) description of the concern in 500 words or less, (b) steps taken to resolved the concern, and
(c) any documentation necessary to support the outcome being sought (catalog description, course syllabus, resource manual/handbook, Department of Nursing website, etc.).

The Student Grievance Form must be submitted within the first 6 weeks after receiving the decision/situation being grieved.

Grievances filed during summer session will be reviewed as determined necessary by SAPC chair.

A review of the grievance by the SAPC committee will occur at the next scheduled meeting after the grievance has been submitted. Student will be emailed the date and time of the meeting. Student will have 48 hours to state whether they accept or decline attendance at the meeting. A student choosing to attend the meeting will have five minutes during the meeting to present the grievance. The student will receive a formal response with the committee’s decision within six weeks of the meeting. The student’s advisor, the department chair, and the dean will receive a copy of the committee’s decision, and a copy will be placed in the departmental student file.

If the student still has concerns regarding the grievance after the SAPC committee has made its decision, it is then the student’s responsibility to follow the appropriate BSU petition process. http://www.bemidjistate.edu/offices/president/policies/

4-Year Track

Admission to 4-Year Track

Admission to BSU
Students must be admitted to Bemidji State University prior to applying for admission to the nursing major. Official transcripts of credits transferred from other post-secondary schools must be available in the BSU Admissions Office by September 15 to be considered for admittance to the nursing major.

Application to Nursing Major
Admission to the University does not grant admission to the nursing program. All students must apply and be accepted to the nursing program before they may begin the sequence of professional nursing courses. Details about the application procedure and a link to the online application can be found on the Department of Nursing website: [http://www.bemidjistate.edu/academics/departments/nursing/apply/4-year/](http://www.bemidjistate.edu/academics/departments/nursing/apply/4-year/).

Admission to Major
Applicants should be aware that because the size of each entering class is limited, admission to the nursing program is competitive. Admission is dependent on the number of applications and evidence of meeting the requirements described on the website and in the 4-Year Track Application Instructions.

Acceptance Process
The Department of Nursing will begin reviewing applications after the September 15 deadline. The standardized entrance exam will be facilitated by the department. The Admissions Committee will notify students of their status after all qualified applicants have completed the admissions process.

Established: 3/07
Revised: 4/09, 4/13, 5/14, 5/16, 6/17, 5/19

Course Substitution/Transfer Equivalency

Course substitutions are not permitted for nursing (NRSG) courses. Requests for course substitution and transfer equivalency for non-nursing courses will be processed according to the BSU process: [http://www.bemidjistate.edu/mybsu/degrees/course-substitutions/](http://www.bemidjistate.edu/mybsu/degrees/course-substitutions/).

Transfer equivalency requests for 4-Year Track prerequisite courses must be formally approved by the Department of Nursing before the nursing application is submitted. It is the student’s responsibility to discuss any anticipated requests with his/her advisor.

Revised 6/17, 5/19

Background Studies

Minnesota law requires that any person who provides services that involve direct contact with patients and residents at a facility licensed by the Minnesota Department of Health have a background study conducted by the state. An individual who is disqualified from having direct patient contact as a result of the background study, and whose disqualification is not set aside by the Commissioner of Health, will not be permitted to participate in a clinical
placement in a Minnesota licensed facility. Failure to participate in a clinical placement required by the academic program could result in ineligibility to qualify for a degree.

A student who is disqualified for unsupervised provision of care as a result of a background study may request the Commissioner of Health to reconsider the disqualification. Individuals who request reconsideration are responsible for handling this step on their own.

If a person who is disqualified chooses not to request reconsideration, or the request is denied, the disqualification becomes final and the person cannot be placed in a clinical setting that involves direct contact with patients. If such a placement is part of the academic requirement for a student’s program, the student will be unable to fulfill the academic requirements to successfully complete the program.

4-Year Track students are required to complete the DHS NetStudy 2.0 online background study, including fingerprinting at an authorized facility, in order to maintain their enrollment in the Nursing program. The department covers the cost of the DHS study, but students are responsible for covering the fingerprinting cost. Results of the study are sent to the student and must be uploaded to the clinical eligibility tracking system.

4-Year Track students are also required to complete federal background studies through the approved vendor in order to participate in clinical experiences. International students or residents of Canada will complete the appropriate study in place of the federal study. Students are responsible for payment of the federal and international background studies. Results of the study are sent to the student and must be uploaded to the clinical eligibility tracking system.

Students must also complete a release of information form, giving the BSU Department of Nursing permission to share the results of the studies if requested by the clinical agencies to which they have been assigned.

Revised: 6/17
Reviewed: 5/18, 5/19

Clinical Eligibility

To establish clinical eligibility, all students admitted to the 4-Year Track Program must submit the following documentation to the department’s clinical eligibility tracking system:

1. State and federal background study results
2. Current immunization records
3. Current CPR certification
4. Proof of nursing assistant coursework
5. Any and all paperwork required by the faculty or clinical facilities

Newly-admitted students without the required documentation on file by the deadline set by the department will be dropped and not permitted to begin the program. Failure to maintain clinical eligibility documentation throughout the program may result in inability to progress in the program.

Clinical sites may have additional eligibility requirements specific to their facilities, which students must meet in addition to those listed above.
Clinicals/Practicums

1. Practicum hours are calculated at two clinical/practicum hours per credit hour. For instance, a one-credit course entails 15 hours of class time. Thus, a one-credit practicum course would entail 30 hours of practicum experience.

2. All students must have current, approved background studies to have direct patient contact in their practicums. Clinical assignments will be contingent upon verification of these requirements, and lack of such verification will prevent the student from beginning, remaining involved, and/or completing a course.

3. Clothing worn by students for clinical/practicum experience is to be in accordance with the respective agency policies (see “Dress Code for Clinicals/Practicums”).

4. Name badges provided by the department are to be worn by the student during clinical/practicum experiences.

5. Students are responsible for their own transportation and auto insurance affiliated with clinical/practicum experiences.

6. Clinical/practicum experiences associated with the program are not conducted during a student’s scheduled time of employment.

7. In case of non-urgent and urgent/emergency messages or needs, the course policy for notification procedures should be followed.

8. Formal contracts are required between the BSU Department of Nursing and agencies where students conduct their clinical/practicums.

9. Faculty reserve the right to make final decisions regarding clinical placement in clinical/practicum courses.

10. Students identify when assistance or further preparation is needed prior to engaging in practicum experiences, refrain from participating in nursing practicum activities for which one is not adequately prepared, and seek consultation from faculty and/or agency personnel.

Dress Code for Clinicals/Practicums

This code reflects professional student attire during practicum, while obtaining assignments, and while participating in other activities where the student is representing Bemidji State University Department of Nursing.

Hospital
- Selected green BSU scrub top with black uniform pants; must be clean and free of wrinkles.
- Clean, white, crewneck t-shirt under scrub top
- Green scrub jacket optional
- Mostly-white or black shoes and hose/socks; no open-toe or open-heel (sling-backs)
- BSU name badge (worn above the waist) required

Community
- Selected BSU polo shirt with navy, black, or khaki pants (no jeans)
- Clean, closed-toe/heel shoes and socks/hose
- Navy or black sweater optional
- BSU name badge (worn above the waist) required

Obtaining Assignment from Hospital
- BSU scrub top with slacks/skirt (no jeans, shorts, or capris)
• Shoes and hose/socks (no tennis shoes, open-toed shoes, sandals, or flip-flops)

**Nails**
• No acrylics or gel nails
• Extending no longer than ¼ inch past fingertips
• If permitted in clinical area, clear or pale-colored nail polish only

**Jewelry**
• Jewelry (piercing/jewelry) should be conservative and appropriate. Jewelry that may be offensive to patients, family members, guests of patients, and/or other customers or employees is not allowed. Examples of inappropriate jewelry include anything of an obscene or sexual nature and/or anything that may be construed to be discriminatory against any sex, race, ethnic background or religion. Examples of inappropriate piercing/jewelry include facial jewelry, large ear jewelry (plugs/gauges) or excessive pieces of ear jewelry per ear.
• Facial and oral jewelry must be removed (clear spacer may be used).
• Other body piercings that cannot be concealed should be removed.
• Plugs/gauges should be concealed, covered with tape, or a solid plug gauge should be worn.

**Hair**
• Off the face, neatly styled
• Pulled back off collar if hangs below
• Hair ornaments should be neutral in color

**Facial Hair**
• Neatly trimmed moustaches and/or beards

**Tattoos**
• All efforts must be made to conceal tattoos that contain language or content which could be offensive. Body art (tattoos) that may be offensive to patients, family members, guests of patients, and/or other customers or employees is not allowed to be visible. Offensive body art may be covered with clothing or tape. Examples of inappropriate tattoos include anything of an obscene or sexual nature and/or anything that may be construed to be discriminatory against any sex, race, ethnic background or religion.

**Miscellaneous**
• Shirts need to be long enough not to reveal bare skin during expected activities.
• Shoes should be limited to the closed-toe/heel type; no sandals, flip-flops, or slingbacks.
• Garments worn under the BSU polo shirt should be white or black.

---

**Course Policies**

1. Active and relevant participation is expected by all students to make the course a success.
2. Test information and review:
   a. Individual faculty will determine review of tests and final exams.
   b. Item analysis will be completed by the instructors and addressed with the class as determined by the instructors.
   c. Class time will not be designated for test item discussions. Any questions regarding individual test items should be submitted via email to the instructor.
d. Students will be assigned nationally-normed proctored tests as appropriate. Expectations for performance will be outlined in the course syllabus.

3. It is the policy of BSU that administrative electronic mail communications between the University and University students shall be done using University-assigned electronic mail addresses. It is the responsibility of each student to monitor the University-assigned electronic mail account for communications from the University. Students may expect a response from faculty within 48 hours during the workweek but should not expect faculty responses during weekends.

4. Students are expected to check email daily as well as the D2L Brightspace course site for any class updates or postings. Many course materials will be provided in D2L for printing rather than as handouts in class. Students are responsible for all information posted in the D2L Brightspace course site, announced in class, and/or Bemidji State University email.

5. Any student who, because of a disability, may require special arrangements in order to complete course requirements should contact the instructor as soon as possible in order to make the necessary accommodations.

Revised 5/18

**HESI Remediation Policy**

**Changes to this are currently under review.**

HESI resources will be used to supplement the nursing curriculum. Practice and proctored tests will be used consistently to assess and improve student knowledge.

Following HESI specialty and exit exams, students are required to remediate and the remediation requirements are dependent on each individual student’s HESI score for each exam. HESI exam scores can be indicative of the student’s level of risk for success in the program and with the NCLEX exam. Students with lower HESI scores require more intense remediation.

All students will complete remediation according to the plan below. Students who do not achieve a 70 conversion score for their HESI specialty exam or an 850 score in the exit exam must complete a remediation plan and then complete the remediation specified in the contract. Students receive their HESI exam reports and correlating online remediation within 48 hours of the exam being closed. From their HESI exam student report, students can develop their personal plan for remediation. Students will follow the specific activities they will complete, based on the remediation policy of the BSU Nursing Program in order to understand their missed concepts/content. Students will complete the remediation plan and notify faculty when the remediation is complete by submitting to their course D2L dropbox a report generated through their HESI accounts. Remediation must be completed 24 hours prior to the scheduled second exam and faculty must be notified of the completion.

Students will not be eligible for admission into the second version of the HESI specialty exam or exit exam unless they complete the specified remediation activities. Depending on the date of the second HESI proctored exam, students have approximately four days to develop their plans, complete these remediation requirements, and submit the completed contract. Students must complete the work on their own and sharing of information or working with other students is considered academic dishonesty and can lead to student dismissal.

Student remediation plans based on HESI scores are as follows:*
| HESI score | 1. Complete online remediation provided in HESI Student Access specific to the exam. A **minimum of two hours** of study is required.**  
2. Develop **two, 10-question custom quizzes** in Adaptive Quizzing two content area of weakness based on your HESI Exam Student Report. Continue to take quizzes in that content area until 80% correct is achieved.*** |
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>≥900 a</td>
<td></td>
</tr>
</tbody>
</table>

| HESI Score 800-899 | 1. Complete online remediation provided in HESI Student Access specific to the exam. A **minimum of four hours** of study is required.**  
2. Develop **two, 10-question custom quizzes** in Adaptive Quizzing two content area of weakness based on your HESI Exam Student Report. Continue to take quizzes in that content area until 80% correct is achieved.*** |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|

| HESI Score 700-799 | 1. Complete online remediation provided in HESI Student Access specific to the exam. A **minimum of five hours** of study is required.**  
2. Develop **three, 10-question custom quizzes** in Adaptive Quizzing three content area of weakness based on your HESI Exam Student Report. Continue to take quizzes in that content area until 80% correct is achieved.*** |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|

| HESI Score 600-699 | 1. Complete online remediation provided in HESI Student Access specific to the exam. A **minimum of six hours** is required.**  
2. Develop **four, 10-question custom quizzes** in Adaptive Quizzing four content area of weakness based on your HESI Exam Student Report. Continue to take quizzes in that content area until 80% correct is achieved.*** |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|

| HESI Score 599 or below | 1. Complete online remediation provided in HESI Student Access specific to the exam. A **minimum of six hours** is required.**  
2. Develop **five, 10-question custom quizzes** in Adaptive Quizzing four content area of weakness based on your HESI Exam Student Report. Continue to take quizzes in that content area until 80% correct is achieved.*** |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|

*Student can develop additional forms of remediation that are subject to faculty approval (document how this completion of remediation will be determined).  
**Student must be logged into their HESI Student Access account and the online test specific remediation content for the number of hours specified. **Don’t print and log out** of HESI remediation to study. Time spent in remediation content is monitored and student can break up the required remediation hours into multiple sessions.  
***When using Adaptive Quizzing as remediation after HESI exams, use Custom Exams and not Mastery Exams. Additionally it is advised that only one content area be selected for each weakness area (as opposed to combining multiple topic areas into a quiz with more questions).

### Unsuccessful Course or Course Withdrawal

Nursing courses are taken in a sequence in which prior learning serves as a basis for continued learning. If a student is unsuccessful in a course in the 4-Year Track program, the student must repeat the course prior to progressing. For example, a student who fails...
Adult/Gerian theory (NRSG 3001) or practicum (NRSG 3003) must successfully complete both Adult/Gerian courses before enrolling in The Childbearing Family (NRSG 3202).

A 4-Year Track student who fails or withdraws from a nursing course may repeat the course only once. Only one course can be repeated. A second experience of receiving an unsuccessful grade (D, F or W) in the same or different nursing course will result in dismissal from the nursing program.

Revised: 1/18
RN-BS Track

Admission to RN to Baccalaureate Program

Admission to BSU
Students must be admitted to Bemidji State University prior to applying for admission to the nursing major. Any liberal education goal areas may be, but are not required to be, completed prior to admission to the nursing program.

Application to Nursing Major
Admission to the nursing major is a separate process from admission to Bemidji State University and is on a first-come, first-served basis. Details about the admission requirements and a link to the online application can be found on the Department of Nursing website: http://www.bemidjistate.edu/academics/departments/nursing/apply/rntobs/.

Transfer Credits
Applicants will receive transfer evaluations from the Admission’s Office once they have been admitted to BSU. The completion of a bachelor’s degree at BSU requires the completion of the BSU liberal education requirements or the MN transfer curriculum.

Admission Review
The Department of Nursing works with Extended Learning to determine the admission status of applicants to the RN-BS nursing major.

Admission Status
1. Applicants who meet all admission requirements will be admitted with regular status.
2. Applicants who are in the process of completing an AS/AA/AD nursing program or are awaiting licensure results may be admitted with provisional status. If a final transcript or licensure status indicates the applicant has not met the admission requirements, provisional status will be withdrawn. The applicant will not be considered as admitted to the program and will not be permitted to continue with enrollment in nursing courses without a current, unencumbered RN license. Enrollment in courses outside of the nursing major, however, may proceed.
3. Once a cohort has reached full enrollment, applicants may be placed on a waitlist.
4. Admitted students who do not complete registration for the fall semester, or who drop all classes during the drop-add period, will not be considered to have started the program and their application status will be changed to cancelled. Should those persons desire to start the program in a later semester, it will be necessary to repeat the admission procedures.

Admission Notification
1. The Office of Admissions will notify applicants of their admission to BSU.
2. The Center for Extended Learning will notify applicants of their admission status to the baccalaureate nursing major.
3. Individuals admitted to the nursing major will be enrolled in the mandatory D2L Brightspace Nursing Program Orientation course and are encouraged to attend on-campus orientation provided by the Department of Nursing, usually scheduled during the first on-campus class day.
4. **Admitted students are required to register for fall classes by August 1.** Seats in the nursing classes will not be held for admitted students after that date and will be given to others on the waitlist.

General Program Information

**Registration for Courses**
Online registration is accomplished using e-Services, available through MyBSU. After the initial semester, registration may require an access code, which students must obtain from their advisors.

**Course Scheduling in the Department**
Courses are conducted in an on-campus/online blended format, with 2-3 class days each semester being held on campus, which students are required to attend. On-campus days are listed in the notes of each course, which can be found on the BSU website [http://www.bemidjistate.edu/academics/schedule/](http://www.bemidjistate.edu/academics/schedule/).

**Library and Computer Resources**
The Bemidji State University library is open during the day, evenings and weekends. Distance students are entitled to full use of library resources. Students have off-campus access to library resources via the library home page: [http://www.bemidjistate.edu/library/](http://www.bemidjistate.edu/library/). All BSU students also have access to free Microsoft Office through Office 365, which can be found linked at the top of the BSU email homepage.

**Departmental Advising**
Once students are admitted to the program, they are assigned a nursing faculty advisor who can help plan an individual’s academic program.

**Communication**
It is the policy of BSU that administrative electronic mail communications between the University and University students shall be done using University-assigned electronic mail addresses. It shall be the responsibility of each student to monitor the University-assigned electronic mail account for communications from the University. Students can expect a response from faculty within 48 hours during the workweek but should not expect faculty responses during weekends.

Revised: 5/16, 6/17

**Clinicals/Practicums**

1. It is important to note that enrollment in practicum courses will require time other than the scheduled class day.
2. Students in the RN-BS Track Program must maintain an unencumbered RN license.
3. Clothing worn by students for practicum experience is to be in accordance with the respective agency policies.
4. Students are responsible for their own transportation and auto insurance affiliated with practicum experiences.
5. Practicum experiences associated with the program will not be conducted during a student’s scheduled time of employment.
6. Formal contracts are required between the BSU Department of Nursing and agencies if students have a clinical assignment at that location.
7. Faculty reserve the right to make final decisions regarding clinical placement in clinical/practicum courses.
8. Students identify when assistance or further preparation is needed prior to engaging in practicum experiences, refrain from participating in nursing practicum activities for which one is not adequately prepared, and seek consultation from faculty and/or agency personnel.

Revised: 5/16

### Unsuccessful Course or Course Withdrawal

An RN-BS student who receives a “D” or “F” in a nursing course may repeat the course only once. Only one course can be repeated. A second experience of receiving an unsuccessful grade (D or F) in the same or different nursing course will result in dismissal from the nursing program.

If an RN-BS student needs to withdraw from one or more courses, they should contact their faculty advisor prior to withdrawing and a degree completion plan should be developed. If a student withdraws from all registered nursing courses during the first program semester, they must reapply to start again the following fall. Concepts of Professional Nursing (NRSG 3100) must be successfully completed as a pre- or corequisite in order to progress in the program.

<td>Essential VI Interprofessional Communication and Collaboration for Improving Patient Health Outcomes Communication and collaboration among healthcare professionals are critical to delivering high quality and safe patient care.</td>
<td>Interprofessional rotation journal 3203 Practicum: The Family&lt;br&gt;Your reflective journaling must include the clinical rotation you were assigned to and address the following topics regarding the professional nurse’s role and interprofessional communication and collaboration in that setting. The clinical reflections must be no less than 100 words each. Give examples of what you observed when possible. Do not include client, nurse, or physician identifying information.&lt;br&gt;1. As you observed the professional/registered nurse’s role in this setting, what struck you as evidence of a professional level of nursing practice?&lt;br&gt;2. Describe your observations regarding the use of evidence-based practice.&lt;br&gt;3. Give some examples of dependent and independent nursing interventions you saw carried out in the department and/or how teamwork came into play. Describe how each health team member communicated and collaborated together.&lt;br&gt;4. Describe a clinical situation in this setting that posed a communication challenge. This can be between client/nurse, nurse/nurse, nurse/physician, nurse/nurse anesthetist/, physician/phlebotomist, etc. What was difficult? How was it handled? What were some effective communication techniques that were used or could have been used?&lt;br&gt;5. As a student nurse, how did you contribute to your patients’ safety and high quality care within the health care team?&lt;br&gt;6. Compare/contrast the roles and perspectives of the nursing profession with other care professionals on the healthcare team in the unit/department (i.e., scope of discipline, education and licensure requirements).</td>

| Essential VII (1) **Clinical Prevention and Population Health**  
*Health promotion and disease prevention at the individual and population level are necessary to improve population health and are important components of baccalaureate generalist nursing practice.* | Course to demonstrate 4-year track | Assignment descriptions  
4-year track | Standard (expected outcome) |
|---|---|---|---|
| **Essential VII (1)**  
**Clinical Prevention and Population Health** | 4003 Practicum: Rural Communities/Populations | **Community Health assessment paper**  
Students complete a community-focused assessment, analysis, diagnosis, implementation and evaluation using the nursing process. | 80% of the students will pass the assignment with a score of 75% or above. |

**Essential VII (2)**  
**Clinical Prevention and Population Health** | 4110 Community Health Nursing | **Issue/role presentation**  
Purpose: To conduct a review of the literature on a specific topic/issue related to community health nursing practice. Students will be able to appreciate the multiplicity of factors influencing community health nursing practice. Students will provide a presentation of a specific issue that will encourage group participation and allow students to learn from each other about the many concerns affecting community health nursing. | 80% of the students will pass each assignment with a score of 75% or above. |

**Essential VIII**  
**Professionalism and Professional Values**  
*Professionalism and the inherent values of altruism, autonomy, human dignity, integrity, and social justice are fundamental to the discipline of nursing.* | 4201 Practicum: Role Integration | **Reflective journal assignment**  
The reflective journaling assignment includes the student’s SMART objectives within the Capstone rotation assigned and topics such as the professional nurse’s role, collaboration, and development of the broader theory of Benner’s *From Novice to Expert* or another nursing theory that fits the Capstone experience within the student’s understanding of their own development during the Capstone experience. | 80% of the students will pass the assignment with a score of 75% or above. |

**Essential IX (1)**  
**Baccalaureate Generalist Nursing Practice**  
*The baccalaureate-graduate nurse is prepared to practice with patients, including individuals, families, groups,* | 3003 Practicum: Adult/Gerian | **Complex case assignment**  
This assignment involves planning and caring for a patient in the clinical setting with the submission of written work reflecting the full nursing process. In addition, one intervention is supported with evidence from the literature and analysis of one article. | 80% of the students will pass the assignments with a score of 75% or above.

<td>Reflective journal Assignment objectives: 1. Synthesize previous liberal arts knowledge and methods into nursing knowledge and practice. 2. Demonstrate creativity and writing ability through reflective journaling. The student will complete assigned journal entries or reflections on selected learning concepts. This reflection should integrate previous general knowledge into nursing knowledge.</td>
<td>Purpose: to foster the development of leadership skills required to lead an evidence-based quality improvement initiative by applying the Institute of Health Care Improvement Model to improve an actual patient safety issue from a leadership perspective. The student will choose a nursing leadership theory to employ along with the IHI Model for Improvement and work from the role of a process leader to identify the problem, select team members, develop an AIM statement, determine outcome, identify process and balancing measures for the proposed improvement, and outline a plan for change (PDSA: Plan Do Study Act).</td>
<td>The student will develop an evidence-based project in response to a clinical practice need identified in a place of employment or other clinical site. The project will include generation of a PICO(T) question, literature search and synthesis resulting in a practice change recommendation, systematic plan for implementation of the change, and creation of a poster illustrating the project.</td>
<td>Purpose: to analyze and evaluate health-related website for credibility, usability and accuracy for practice with patients who are consumers in the information age. It is critical that nurses are able to guide patients (consumers) in their use of the internet when they are seeking health-related information.</td>

Appendix C: Documentation of Unprofessional Behavior and/or Unsafe Practice

BEMIDJI STATE UNIVERSITY
DEPARTMENT OF NURSING

Student name (type or print legibly) ___________________ Student ID # ___________________ Course # ___________________
Semester and Year ___________________ Advisor name ___________________ Date of Incident(s) ___________________

Date this form was discussed with the student ___________________ Location of Incident(s) ___________________

As documented below, this student has demonstrated professional and personal attributes that do not meet the standards of professionalism in clinical, classroom, lab or community settings, and safe clinical practice. The responsible faculty/academic staff will be taking the actions indicated below:

Faculty/Academic Staff: Check recommended action(s)

☐ Written Warning ☐ Plan for Remediation ☐ Failure of Course ☐ Expulsion from BSU program

A maximum of 3 Documentation of Unprofessional Behavior and/or Unsafe Practice events will be grounds for expulsion from BSU programs.

Signature (faculty/academic staff) ___________________ Date ___________________

Faculty/Academic Staff: Check (✓) the appropriate categories below and provide specific, relevant documentation related to the behaviors of concern.

1. The student fails to meet the standards of professionalism from a biological, psychological, sociological and/or cultural standpoint:
   ☐ Failure to carry out psychomotor/technical skills in a safe and/or professional manner.
   ☐ Failure to carry out communicative skills in a safe manner.
   ☐ Act of omission in the care of client.
   ☐ Act of commission in the care of a client.
   ☐ Displays mental, physical and/or emotional behavior(s) which negatively affect others.
   ☐ Does not come to class or clinical prepared.
   ☐ Other ___________________

Supporting documentation required: ____________________________________________
________________________________________
________________________________________

2. The student lacks consistency in responsible preparation, documentation and/or communication.
   ☐ Attempts activities without adequate preparation or assistance.
   ☐ Demonstrates inaccurate or incomplete verbal/written communication.
   ☐ Acts in such a way to create significant anxiety and/or stress to others.
   ☐ Is verbally abusive and/or exhibits threatening, coercive or violent behavior toward anyone.
   ☐ Is unable to achieve therapeutic nurse-patient relationships characterized by rapport, empathy and respect.
   ☐ Violates the boundaries of professional nurse-patient/family relationships, e.g., engages in romantic or sexual relationships.
   ☐ Is unable to maintain satisfactory relationships with others in clinical, university or community settings.
   ☐ Other ___________________

3. The student fails to practice within the boundaries of the Minnesota Nurse Practice Act, guidelines or the course syllabus, policies of the College of Nursing and the rules and regulations of the health care agency that is the site of the course.
   - Is habitually tardy/absent
   - Is habitually tardy in submitting assignments.
   - Exhibits criminal behavior.
   - Is suspected of being under the influence of drugs and/or alcohol in class, clinical or university settings.
   - Dresses inappropriately and/or exhibits nonprofessional appearance/behavior.
   - Exhibits behavior that is offensive to others (sexist, racist, threatening, demeaning).
   - Needs repeated reminders of responsibilities consistent with the policies of the College of Nursing and/or clinical agency.
   - Other

Supporting documentation:
