An Online Career-Exploration Resource for Psychology Majors

Drew C. Appleby

Indiana University–Purdue University Indianapolis

An Open Letter to Psychology Majors

Dear Psychology Majors,

I taught, advised, and mentored psychology majors for 40 years at both a small, private, residential, liberal arts college and a large, public, commuter, research university. Although these two schools were remarkably different, all my students were concerned about their ability to provide a confident answer to the perennial question, “What can I do with a bachelor’s degree in psychology?” (For an explanation of why this question is so challenging, access my article titled How to Maximize the Blessings and Minimize the Curses of Being a Psychology Major listed in the reference section.) The remarkable pervasiveness of this query among my students motivated me to create and teach a careers-in-psychology class to help them answer it and to write a textbook for the class titled The Savvy Psychology Major. The goal of the class was to enable students to become savvy psychology majors by creating an educational plan that would enable them to give clear, complete, convincing, and confident answers to the following questions:

1. What careers can I enter if I major in psychology, and which of these would be a good choice for me?
2. Which of these careers can I enter with a bachelor’s degree, and which will require a graduate degree?
3. What specific knowledge and skills (KSs) must I possess to enter and succeed in my chosen career?
4. How can I use the curricular and the extracurricular components of my education to develop these KSs?
5. How can I convince potential employers or graduate school admissions committees that I possess these KSs so they will hire me with a bachelor’s degree or accept me into their graduate program?

This resource, combined with some serious and honest self-reflection, can help you answer the first three of these questions. Once you feel comfortable with your answers, your next step should be to meet with your
academic advisor. Explain your answers to these three questions during this meeting, and then ask your advisor to help you create a plan for the remainder of your undergraduate education that will enable you to enroll in the classes and engage in the extracurricular activities (e.g., research, internships, service learning, and leadership opportunities) that will enable you to develop the KSs you need to prepare yourself for your chosen career. The final step will depend upon if your career requires you to earn a degree beyond the bachelor’s. If it does, seek the aid of a faculty mentor who can help you create and obtain the documents you will need to apply successfully to a graduate program (i.e., a curriculum vitae, a personal statement, and at least three strong letters of recommendation from appropriate people). If you can enter your chosen career with a bachelor’s degree, then visit your career center where a professional employment counselor can help you create the necessary documents and information you will need to be hired (i.e., a resume, a cover letter, and effective answers to challenging interview questions). This strategy is a complex task, so it is best to break it down into three smaller and more manageable steps by understanding, embracing, and living out the wisdom of the following short, but venerable quotations.

1. The Oracle at Delphi (speaking through Socrates), said “Know thyself.” Savvy psychology majors know themselves when they identify their skills, interests, and values and use this information to create realistic career goals.

2. Shakespeare wrote Hamlet in which Polonius provided the following sage advice, “To thine own self be true.” Savvy psychology majors are true to themselves when they (a) use their self-knowledge to identify careers in which they can perform well, enjoy the work they do, and value the products of their work and then (b) create carefully crafted and realistic plans to use their undergraduate educations to prepare for, enter, and succeed in these careers.

3. Nike (the ancient Greek goddess of victory), speaking through her 21st century commercial namesake, said “Just do it.” Savvy job-seeking psychology majors just do it when they put their realistic plans into action by actually engaging in the specific behaviors that will enable them to successfully enter and succeed in their chosen careers.

I used these three pieces of advice to help thousands of students answer the question, “What can I do with a bachelor’s degree in psychology?” Although I am now retired and you are not my students, it would give me great satisfaction if you used the career information in this resource to become savvy psychology majors.

Sincerely yours,

Drew C. Appleby, PhD
Professor Emeritus of Psychology
Director of Undergraduate Studies in the IUPUI Psychology Department (Retired)

PS. This resource is not a finished product; it is a work in progress. If you (a) discover any errors such as dead hotlinks or online sources that contain inaccurate or inappropriate information; (b) are aware of any trustworthy online resources that would expand this list; or (c) would like to recommend a career that can be added to this resource, please share this information with me at dappleby@iupui.edu.

Rationale and Purpose of This Resource

Undergraduate psychology programs have traditionally provided students with abundant opportunities to acquire the KSs necessary to prepare for graduate school, which is the post-baccalaureate step most familiar to psychology faculty. While this strategy has worked well for the small subset of psychology majors who enter graduate school after completing their undergraduate education, it has not always been as successful for the vast majority who enter the workforce immediately after they graduate. The authors of the most recent edition of the
APA Guidelines for the Undergraduate Psychology Major (American Psychological Association [APA], 2013) recognized this problem and sought to reduce its negative impact by urging undergraduate programs to help their immediate-career-seeking students develop more meaningful professional direction by (a) acquiring an understanding of the careers in which people with backgrounds in psychology are typically employed and (b) becoming familiar with the KSs desired by those who hire people with baccalaureate degrees in psychology. Once students acquire this foundational information—and use it to identify their potential career paths—faculty and advisors can provide them with specific strategies to utilize their curricular and extracurricular opportunities to identify, clarify, prepare for, and attain their professional goals. The purpose of this resource is to provide ALL psychology majors—whether or not they plan to attend graduate school—with access to the broad panorama of careers they can enter, the nature of these careers, and the KSs they will need to obtain and succeed in these careers.

Description and Instructions for the Resource

The 300 careers in this resource are accompanied by more than 2,400 internet sites that contain information about the nature of these careers. To increase the navigational efficiency of this 80-page resource, these careers are organized into the following 15 broad occupational clusters, which are highlighted in YELLOW. This structure enables users to identify groups of related careers that fit their unique patterns of interests, values, goals, skills, and knowledge and then locate these groups with the hyperlinks below.

1. Business, Advertising, and Finance
2. Children and Families
3. Counseling
4. Education
5. Health and Medical Services
6. Human Resources
7. Law and Law Enforcement
8. Military
9. Psychology
10. Religion and Spirituality
11. Social and Human Services
12. Sport, Fitness, and Recreation
13. Technology
14. Therapy
15. Other

Persons employed in 56 of these careers bear the official title of psychologist and must earn a graduate degree. Persons employed in the remaining 244 psychology-related careers (i.e., careers that require the demonstration of psychological knowledge and/or skills, but which do not carry the title of psychologist) are divided almost equally into two categories: those whose careers can be entered with a bachelor’s degree (highlighted in BLUE), and those whose careers require a graduate degree (highlighted in GREEN). Careers are listed alphabetically in each of these categories. In addition, I have marked with ● those careers rated by O*NET as having a bright outlook because they are expected to grow rapidly in the next several years, they will have large numbers of job openings, or they are new and emerging occupations. Many careers appear in more than one category, such as Educational Psychologist, which can be found in both the Education and the Psychology categories. Each career is followed by a set of hotlinks to a variety of online sources that provide users with answers to the following questions.

1. What knowledge, skills, abilities, tools, and technologies are required in this career?
2. What do workers actually do in this career and under what conditions do they carry out these duties?
3. What types of job training or education are required to enter this career?
4. What interests, values, and characteristics do workers in this career possess?
5. How much money do people employed in this career earn?
6. How many people are employed in this career, and what is the projected need for it in the future?
7. What other occupations are related to this career?

A label that identifies its source precedes each hotlink. These labels and their sources are below.

- DOT, OOH, and O*NET: government websites that enable visitors to explore careers
- Wild Card: a nongovernmental website that enables visitors to explore careers
- Video: a YouTube or other online visual media source created to enable site visitors to explore careers, some of which feature “a day in the life” of a person employed in a particular career
- Interview: a transcribed interview with a person employed in a particular career
• **STP and a Chapter Number:** a chapter containing advice about how to prepare for a career in a sub-discipline of psychology that appears in an edited e-book titled *Academic Advising: A Handbook for Advisors and Students: Volume 2: A Guide to the Sub-Disciplines* (Irons, & Miller, 2015) published by Division 2 of APA (The Society for the Teaching of Psychology)

• **APA Careers:** a resource created by APA to enable site visitors to explore careers in a specific sub-discipline of psychology (e.g., social, clinical, or industrial/organizational psychology)

• **APA Psychologist Profile:** a profile of a psychologist from APA’s multimedia campaign (www.PsychScienceAction.org) who is using her or his psychological expertise to improve human welfare by performing research on problems such as Alzheimer’s disease, obesity, and distracted driving

• **APA Applied Research:** a summary of how the results of research of APA members in a particular psychological sub-discipline have been applied to promote human welfare

• **APA Division:** a division of APA devoted to psychologists who practice a particular sub-discipline of psychology by publishing journals and newsletters, hosting listservs, holding conferences and meetings, providing networking and mentoring opportunities, and sponsoring awards. Go to http://www.apa.org/about/division/activities/dive-student.pdf to see how students can benefit from becoming a member of one of these divisions at a very low membership fee.

### An Explanation of O*NET

This description of O*NET is taken from its website (National Center for O*NET Development, 2015, ¶ 1). The O*NET program is the nation's primary source of occupational information. Central to the project is the O*NET database, containing information on hundreds of standardized and occupation-specific descriptors. The database, which is available to the public at no cost, is continually updated by surveying a broad range of workers from each occupation. Information from this database forms the heart of O*NET OnLine, an interactive application for exploring and searching occupations. The database also provides the basis for our Career Exploration Tools, a set of valuable assessment instruments for workers and students looking to find or change careers.

Go to http://www.onetonline.org/ to explore this amazing source of career information.
