

Applied Management

BACHELOR OF APPLIED SCIENCE

Secure Your Future

Turn your AA or AAS into a Bachelor's Degree

10,000 Baby Boomers reach retirement every day. Many are managers who will be stepping down. Industry estimates we will need an additional 103,000 Management Analysts in the next decade. Are you ready to take that promotion? Prepare yourself today with a bachelor's degree in Applied Management.

Finish in 2 Years: This transfer-friendly program is designed specifically for individuals with a two-year degree (e.g. technical, industrial, business, healthcare...) who are interested in advancing their professional career. The program permits most students to apply up to 30 technical credits and their liberal education credits toward the Applied Management degree. This allows most students to complete the Applied Management degree in two years.

Online Flexibility: A bachelor's degree will help you get promoted. We know you can't quit your current job and go to college. You have bills, a home, and a family to consider. That's why we created the Applied Management degree as an online program. The flexibility of the Applied Management degree allows you to continue working while attending college. With BSU, you earn while you learn.

Broad-Based: BSU's Applied Management degree provides you the broad-based education today's managers need to succeed. No matter which career path you choose, the right blends of Project Management, Economics, Cost Analysis, Operations Planning and Control, Leadership and Total Quality Management will round out your current skills making you the best manager ever!
