

An aerial photograph of a hurricane, showing a distinct eye and spiral cloud bands over a dark blue ocean. The image is the background for the entire slide.

*Rebuilding after Hurricane Katrina:
The Big Easy, and the Long Road Home*

Jennifer S Boucher

Dr. Patrick Donnay, Advisor

Why Study Hurricane Katrina

I wanted to see why the U.S. can help other nations rebuild, but were struggling to rebuild our own city

I wanted see if media reports were accurate on racial polarization & socioeconomically inequalities

Why five years after the fact people are still displaced

Hurricane Katrina

Facts

 **ORLEANS PARISH**

 **AUGUST 29TH, 2005**

 **CATEGORY 4**

 **WIND**

 **WATER**

Correlations

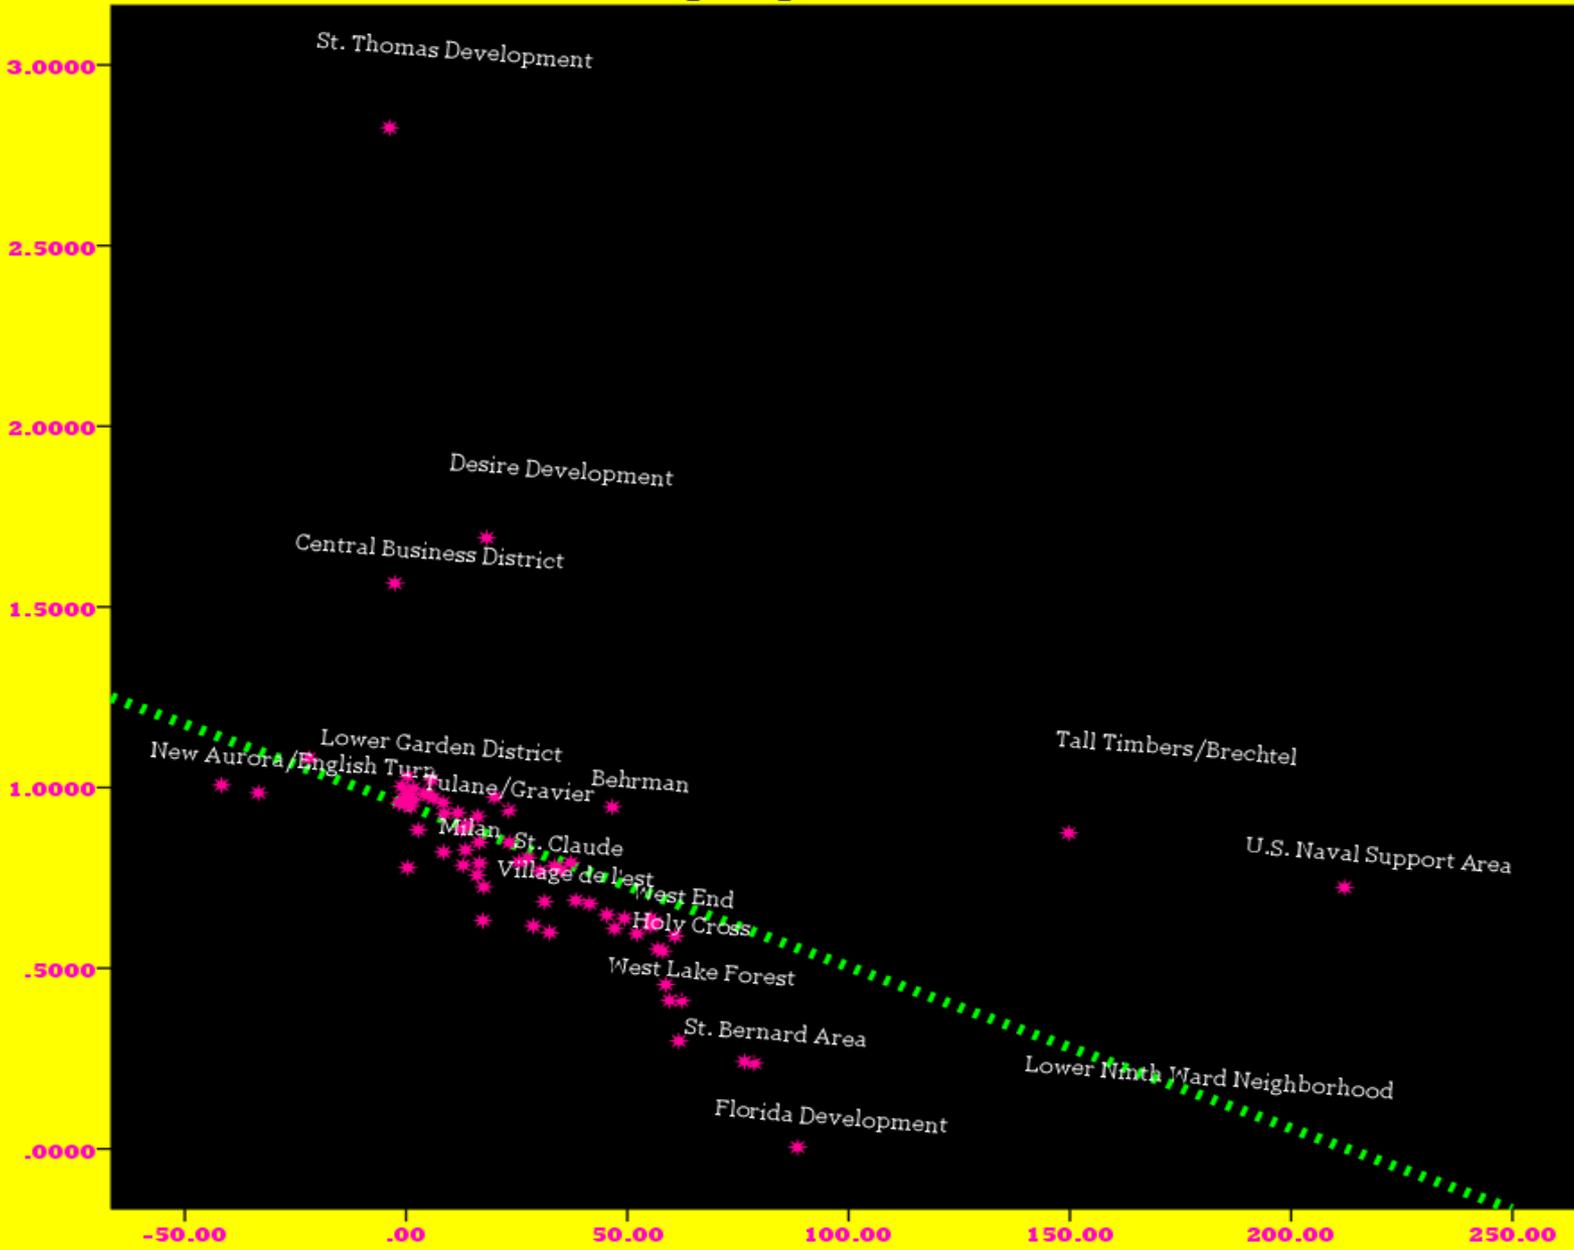

**Dependent Variable is
Percentage Mail recovered**

50% or less damage	Pearson Correlation	.471**
	Sig. (2-tailed)	.000
50% or more damage	Pearson Correlation	-0.366**
	Sig. (2-tailed)	0.001
Average household income	Pearson Correlation	.087
	Sig. (2-tailed)	.466
Anglo-American	Pearson Correlation	.085
	Sig. (2-tailed)	.473
African American	Pearson Correlation	-.147
	Sig. (2-tailed)	.213
Total number of organizations	Pearson Correlation	-.015
	Sig. (2-tailed)	.9

**** correlations is
significant at the
.01 level (2-tailed)**

Recovery By Mail Distribution

Percentage of Mail Delivered per Neighborhood 2010

Total Damaged Structures per Neighborhood

Conclusion

- **Major factor for the slow return**
 - **Housing damage**
- **Historical processes/uneven recovery of neighborhoods**
 - **Vulnerable city**
- **More research**
 - **Ground truthing**
 - **Actual numbers rather than estimated**
