"Summer Session gave me the opportunity to accomplish my goal of graduating with a double major. It’s also a great time to work towards completing a minor or to simply get ahead and lighten course loads for a major. With both online and on-campus courses being offered, students are able to have flexibility during the summer months while still getting ahead on their college careers."

"I think taking summer courses is a really great way to get ahead in your degree. I’ve taken a couple every summer since freshman year. Now I’ll be able to have more of a relaxed final spring semester (with only 9 credits needed to satisfy my requirements- this means that I’ll have the opportunity to take more classes that I’m interested in, rather than just the core classes that are required).

I’m excited to have the time to be able to focus on applying to jobs instead of having double the classes like a lot of other seniors! The classes are also flexible with where you’re located as well; most are online, so if you are moving home, you still have the option to stay ahead!

I’ve also had a couple friends that needed to take a couple courses and they were really happy to be able to get them done in the summer, and were able to focus more on the specific aspects that they might struggle with during the school year."

**Top 10 Reasons to Attend Summer Session**

1. **Your friends are probably thinking about it, too.** You’re not the only person planning to attend Summer Session! Talk to your friends, and you might find you’d have great company for a fun summer in Bemidji.

2. **You don’t have to give up employment for Summer Session.** Summer session is very compatible with summer jobs. For those taking classes part time, it’s easy to schedule work around classes. When it’s not so easy, online classes can save the day. Nearly all online courses are asynchronous, which means you can log-on at any time during the day or night to complete assignments.

3. **Summer might let you complete a second major or add a minor.** The extra knowledge from a second major or a minor looks great to potential employers. Give yourself an edge by completing another major or minor through Summer Session Courses.

4. **Summer is a great time to challenge yourself to improve your GPA.** Sometimes it’s better to have more free time to focus on one or two challenging classes. Taking a couple of summer classes can help you get more out of your most important courses and help you be more successful.

5. **Bemidji is a fun place to be during the summer.** If you enjoy boating, fishing, camping, biking, the arts, festivals and shows, the Bemidji Area offers endless opportunities to have fun and stay busy. Be sure to see all that BSU’s Outdoor Program Center has to offer.

6. **You can still take summer vacation.** Not with Summer Session! The nice thing about Summer Session is that the schedule still allows for a nice vacation and time to spend with friends and family. You can choose a three-week May session or a four-week session in June or July.

7. **You don’t have to give up employment for Summer Session.** Summer session is very compatible with summer jobs. For those taking classes part time, it’s easy to schedule work around classes.
