End-dating Advisor Assignments –

Here is some background: We currently do not have a process in place to end-date advisor assignments once a student leaves or graduates. The Advising Success Center, working in collaboration with Records and CEL, is proposing that we end-date advisor assignments for graduated students, upon graduation, beginning Spring 2019. They will then work on prior graduation terms to end-date advisor assignments, as time permits. Eventually, we’d also like to end-date advisor assignments for students who haven’t attended after a year. Once the student re-enrolls, they would be contacted and given an advisor assignment based on their program of study.
