**Summary****IPEDS Student Financial Aid (SFA) Survey Summary**

IPEDS collects important information regarding your institution. All data reported in IPEDS survey components become available in the IPEDS Data Center and appear as aggregated data in various Department of Education reports. Additionally, some of the reported data appears specifically for your institution through the College Navigator website and is included in your institution's Data Feedback Report (DFR). The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the College Navigator website and/or your DFR. College Navigator is updated approximately three months after the data collection period closes and Data Feedback Reports will be available through the [Data Center](#) and sent to your institution's CEO in November 2017.

Student Financial Aid

Bemidji State University (173124)

Source	Description	Severity	Resolved	Options
Screen: Part D - Enter Information about Group 3				
Upload File	The number entered is outside the expected range of between 26 and 46 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason: The cohort is smaller and fewer of these chose this housing option.				
Screen: Part E - Enter Information about Group 4				
Upload File	The calculated average amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. Please check the values reported for the number of these students who were awarded any Title IV aid (Col. 1) and the total amount of grant or scholarship aid awarded to them (Col. 3) and correct your data or explain the discrepancy. (Error #7317)	Explanation	Yes	
Reason:	The distribution of award amounts for students in the \$0-30,000 income range at Bemidji has been stable over the 2014-15, 2015-16, and 2016-17 reporting cycles – in particular, there is a clear peak in awards just at/below the \$10,000 mark; only 35% of their awards exceeded \$10,000 in 2016-17. Over the same time period (2016-17), students in the \$30,001-48,000 range showed an uncharacteristic peak in awards just *above* the \$10,000 amount; a full 48% of these students received award amounts in excess of \$10,000. This increase in the central values of the award amounts pushed the average to a higher than expected value – higher, in fact, than the same average for the \$0-30,000 income group. In summary: it wasn't that the flagged amount was too small, it was that the nearest comparison group was too large.			
Upload File	The total amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution across all income levels is outside the expected range of between 1,400,286 and 2,333,810 based on the prior year value. Please correct your data or explain. (Error #7332)	Explanation	Yes	
Reason: This is really because there are more students in the group this year				
Upload File	The number entered is outside the expected range of between 19 and 35 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason: The cohort is much smaller resulting in few students in this category				
Upload File	The number entered is outside the expected range of between 28 and 52 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason: The cohort is much smaller this year resulting in few students in this category
