

VISUAL ART EDUCATION

BACHELOR OF SCIENCE | TECHNOLOGY, ART, AND DESIGN

Bemidji State University's Visual Art Education major is designed as a studio approach to the study of the concepts, methods, and curriculum planning regarding the teaching of visual arts at the K-12 school levels. Teacher candidates budget an art program and plan for the management of art classroom procedures, design and implement meaningful and appropriate assessments and evaluations of students and programs, outline safe use of tools, equipment, materials, and processes in visual art education learning environments. Teacher candidates develop curriculum goals and purposes based on the central concepts of visual arts and know how to apply instructional strategies and materials for achieving student understanding of this discipline. Teacher candidates culminate their learning experience by creating and defending detailed plans on how to involve representatives of business, industry, and community organizations as active partners in creating educational opportunities for visual arts students.

Ideal Students

The ideal TAD student is anyone that likes to learn through hands-on experiences. TAD students are all about making and doing things. The TAD School offers focused training for real-world employment opportunities.

Additional Opportunities

TAD students have access to a number of opportunities outside of the classroom. The School of TAD has several clubs (Design Club, Construction Club, Engineering Club, Model Making Club) that offer weekly activities. TAD also offers several industry related student trips each year as well as international trips every three years.

Want to see our facility?

All TAD programs are located in Bridgeman Hall on the Bemidji State University campus. The facility is state-of-the-art and is filled with examples of student work. During their time in TAD, students get access to cutting-edge labs, software, machinery and technology. Both individual and group tours are available upon request. Email: Agraham@bemidjistate.edu to schedule a visit today!
