EMPLOYMENT AREAS AND PROJECTED DEMAND:

The "Occupational Outlook Handbook" (OOH) reports that industrial production managers held about 190,100 jobs in 2019. They are employed in all areas of manufacturing, splitting their time between the production line and an office. They typically need several years of related work experience in addition to the degree. Construction managers held about 476,700 jobs nationwide in 2019. The areas that employed the most were specialty trade contractors, nonresidential/residential building construction, and heavy and civil engineering construction.

OOH reports that the nationwide demand for industrial engineering technicians is expected to have little to no change in growth through 2029, with people established in their career generally earning between \$35,850 and \$87,790 per year. The median pay for 2019 was \$56,550 per year. Industrial production managers with experience can earn between \$65,050 and \$176,070 with the median pay of \$105,480. The demand for construction managers is expected to grow 8% (much faster than average) through 2029 with people established in their career generally earning between \$56,140 and \$164,790 per year and with the median wage of \$95,260.
