SCOPE:
SCHC Health and Counseling professional staff.

PURPOSE: The Student Center for Health and Counseling will refer medical and counseling clients for off-campus services when deemed appropriate by professional staff.

PROCEDURE:

1. Clients will be referred for community health and mental health resources, clinical facility or private practitioner when deemed appropriate.

2. A decision to refer a student for medical or psychological assessment and/or treatment will be based on a determination of the client’s treatment needs and appropriateness of this center to adequately provide the needed services(s).

3. Referrals will be made with sensitivity to the conditions and/or issues of the client.

4. Attention will be directed toward the development of meaningful consumer skills on the part of the client to access external services.

5. SCHC professional staff will attempt to follow up on the efficiency of the referral.
