

# MAKE IT REAL at Aalborg University

At AAU we believe that knowledge can and shall change the world

- 1. Top-ranked university.** Among the top two percent of the world's 17,000 universities and **best within Engineering in Europe.**
- 2. Denmark is among the safest countries** in the world, with a great healthcare system and informal **student-teacher** relationship.
- 3. AAU is famous for our take on the 'Problem Based Learning' method.** The competencies acquired through PBL are **highly recognized.**

## PBL

Aalborg University is different from other universities. For example due to the PBL model, **AAU partners with companies and public institutions.**

Therefore, AAU students work closely together with collaborators in companies and public institutions to **solve real life issues.**

**What to expect and how to apply: [www.exchange.aau.dk](http://www.exchange.aau.dk)**

## What can you expect at AAU?

**"One of the best experiences of my life to be honest.**

*Being a student at AAU and being a part of the PBL method really helped me evolve as a student and I'm super grateful for the opportunity".*

Marcus Thompkins, Florida State University, Spring semester 2023

*"Although having difficulties, I **really liked the PBL**, since I think that the learning effect is much higher than just learning things for a written exam and possibly forgetting about the things learned after the exam"*

Exchange student Fall 2022

**"Hospitality from AAU students and staff.** From the very beginning, I really felt adopted and like I was at my own home. Thank everyone for that! It meant a lot to me while getting used to a new place".
