Moving in can be a hectic day full of different emotions and new sights and people, but it doesn’t have to be a mess.

**Check in at your assigned building.**
Watch for “unloading zone” signs, and be respectful of the 20 minute time limit in these spaces.

- Some carts are available on campus, but in case they’re all gone when you arrive, we encourage you to bring your own, as well as any personal belongings that will make you feel comfortable as you settle into your own home.
- Elevators will be in constant use; please be patient for your turn.

Remember to include some familiar comforts from home, like that teddy bear you’ve had since you were six! But don’t forget, you have a roommate who wants to do all of this too.

Most of all, have fun and enjoy meeting your new neighbors!

We will See you on Move In Day! August 24, 2018

Lofting

One way residents personalize their residence hall room is to loft their bed. If you are considering this option, you may elect to rent a bed lofting kit.

• This may be selected through your housing application. Simply select yes to the loft option after you select your room in June and our staff will loft your bed before you arrive!
• Applications requesting lofts received by August 1 will be guaranteed set up on arrival.

Due to safety concerns, as well as damage to the rooms, construction of personal bed lofts will not be permitted.
